(A) took effect before March 31, 1994; and

(B) includes provisions relating to smoking privileges that are in violation of the requirements of this section.

(2) Termination of waiver

A special waiver granted under this subsection shall terminate on the earlier of—

(A) the first expiration date (after March 31, 1994) of the collective bargaining agreement containing the provisions relating to smoking privileges; or

(B) the date that is 1 year after March 31, 1994.

(f) Civil penalties

(1) In general

Any failure to comply with a prohibition in this section shall be a violation of this section and any person subject to such prohibition who commits such violation may be liable to the United States for a civil penalty in an amount not to exceed \$1,000 for each violation, or may be subject to an administrative compliance order, or both, as determined by the Secretary. Each day a violation continues shall constitute a separate violation. In the case of any civil penalty under this section, the total amount shall not exceed the amount of Federal funds received by such person for the fiscal year in which the continuing violations occurred. For the purpose of the prohibition in subsection (c) of this section, the term "person" shall mean the head of the applicable Federal agency or the contractor of such agency providing the services to children.

(2) Administrative proceeding

A civil penalty may be assessed in a written notice, or an administrative compliance order may be issued, by the Secretary only after an opportunity for a hearing in accordance with section 554 of title 5. Before making such assessment or issuing such order, or both, the Secretary shall give written notice thereof to such person by certified mail with return receipt and provide therein an opportunity to request in writing not later than 30 days after the date of receipt of such notice such hearing. The notice shall reasonably describe the violation and be accompanied with the procedures for such hearing and a simple form to request such hearing if such person desires to use such form. If a hearing is requested, the Secretary shall establish by such certified notice the time and place for such hearing which should be located, to the greatest extent possible, at a location convenient to such person. The Secretary (or the Secretary's designee) and such person may consult to arrange a suitable date and location where appropriate.

(3) Circumstances affecting penalty or order

In determining the amount of the civil penalty or the nature of the administrative compliance order, the Secretary shall take into account, as appropriate—

(A) the nature, circumstances, extent, and gravity of the violation;

(B) with respect to the violator, any good faith efforts to comply, the importance of

achieving early and permanent compliance, the ability to pay or comply, the effect of the penalty or order on the ability to continue operation, any prior history of the same kind of violation, the degree of culpability, and any demonstration of willingness to comply with the prohibitions of this section in a timely manner; and

(C) such other matters as justice may require.

(4) Modification

The Secretary may, as appropriate, compromise, modify, or remit, with or without conditions, any civil penalty or administrative compliance order. In the case of a civil penalty, the amount, as finally determined by the Secretary or agreed upon in compromise, may be deducted from any sums that the United States or its agencies or instrumentalities owes to the person against whom the penalty is assessed.

(5) Petition for review

Any person aggrieved by a penalty assessed or an order issued, or both, by the Secretary under this section may file a petition for judicial review thereof with the United States Court of Appeals for the District of Columbia Circuit or for any other circuit in which the person resides or transacts business. Such person shall provide a copy thereof to the Secretary or the Secretary's designee. The petition shall be filed within 30 days after the Secretary's assessment or order, or both, are final and have been provided to such person by certified mail. The Secretary shall promptly provide to the court a certified copy of the transcript of any hearing held under this section and a copy of the notice or order.

(6) Failure to comply

If a person fails to pay an assessment of a civil penalty or comply with an order, after either or both are final under this section, or after a court under paragraph (5) has entered a final judgment in favor of the Secretary, the Attorney General, at the request of the Secretary, shall recover the amount of the civil penalty (plus interest at then currently prevailing rates from the day either or both are final) or enforce the order in an action brought in the appropriate district court of the United States. In such action, the validity and appropriateness of the penalty or order or the amount of the penalty shall not be subject to review.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in sections 6314, 7234, 7815, 8852, 8857, 8941 of this title; title 31 section 6703.

§ 6101. Findings

Congress finds that—

(1) three-fourths of high school students in the United States enter the workforce without baccalaureate degrees, and many do not possess the academic and entry-level occupational skills necessary to succeed in the changing United States workplace;

(2) a substantial number of youths in the United States, especially disadvantaged students, students of diverse racial, ethnic, and cultural backgrounds, and students with disabilities, do not complete high school;

(3) unemployment among youths in the United States is intolerably high, and earnings of high school graduates have been falling relative to earnings of individuals with more education;

(4) the workplace in the United States is changing in response to heightened international competition and new technologies, and such forces, which are ultimately beneficial to the Nation, are shrinking the demand for and undermining the earning power of unskilled labor;

(5) the United States lacks a comprehensive and coherent system to help its youths acquire the knowledge, skills, abilities, and information about and access to the labor market necessary to make an effective transition from school to career-oriented work or to further education and training;

(6) students in the United States can achieve high academic and occupational standards, and many learn better and retain more when the students learn in context, rather than in the abstract;

(7) while many students in the United States have part-time jobs, there is infrequent linkage between—

(A) such jobs; and

(B) the career planning or exploration, or the school-based learning, of such students;

(8) the work-based learning approach, which is modeled after the time-honored apprenticeship concept, integrates theoretical instruction with structured on-the-job training, and this approach, combined with school-based learning, can be very effective in engaging student interest, enhancing skill acquisition, developing positive work attitudes, and preparing youths for high-skill, high-wage careers;

(9) Federal resources currently fund a series of categorical, work-related education and training programs, many of which serve disadvantaged youths, that are not administered as a coherent whole; and

(10) in 1992 approximately 3,400,000 individuals in the United States age 16 through 24 had not completed high school and were not currently enrolled in school, a number represent-

ing approximately 11 percent of all individuals in this age group, which indicates that these young persons are particularly unprepared for the demands of a 21st century workforce.

EFFECTIVE DATE

Section 801 of Pub. L. 103-239 provided that: “This Act [see Short Title note below] shall take effect on the date of enactment of this Act [May 4, 1994].”

SHORT TITLE

Section 1(a) of Pub. L. 103-239 provided that: “This Act [enacting this chapter, amending sections 2394b, 2394c, and 4441 of this title, section 1699 of Title 29, Labor, and sections 11449 and 11450 of Title 42, The Public Health and Welfare, and enacting provisions set out as notes under this section and section 4401 of this title] may be cited as the ‘School-to-Work Opportunities Act of 1994’.”

§ 6102. Purposes and Congressional intent**(a) Purposes**

The purposes of this chapter are—

(1) to establish a national framework within which all States can create statewide School-to-Work Opportunities systems that—

(A) are a part of comprehensive education reform;

(B) are integrated with the systems developed under the Goals 2000: Educate America Act [20 U.S.C. 5801 et seq.] and the National Skill Standards Act of 1994 [20 U.S.C. 5931 et seq.]; and

(C) offer opportunities for all students to participate in a performance-based education and training program that will—

(i) enable the students to earn portable credentials;

(ii) prepare the students for first jobs in high-skill, high-wage careers; and

(iii) increase their opportunities for further education, including education in a 4-year college or university;

(2) to facilitate the creation of a universal, high-quality school-to-work transition system that enables youths in the United States to identify and navigate paths to productive and progressively more rewarding roles in the workplace;

(3) to utilize workplaces as active learning environments in the educational process by making employers joint partners with educators in providing opportunities for all students to participate in high-quality, work-based learning experiences;

(4) to use Federal funds under this chapter as venture capital, to underwrite the initial costs of planning and establishing statewide School-to-Work Opportunities systems that will be maintained with other Federal, State, and local resources;

(5) to promote the formation of local partnerships that are dedicated to linking the worlds of school and work among secondary schools and postsecondary educational institutions, private and public employers, labor organizations, government, community-based organizations, parents, students, State educational agencies, local educational agencies, and training and human service agencies;

(6) to promote the formation of local partnerships between elementary schools and secondary schools (including middle schools) and local businesses as an investment in future workplace productivity and competitiveness;

(7) to help all students attain high academic and occupational standards;

(8) to build on and advance a range of promising school-to-work activities, such as tech-prep education, career academies, school-to-apprenticeship programs, cooperative education, youth apprenticeship, school-sponsored enterprises, business-education compacts, and promising strategies that assist school dropouts, that can be developed into programs funded under this chapter;

(9) to improve the knowledge and skills of youths by integrating academic and occupational learning, integrating school-based and work-based learning, and building effective linkages between secondary and postsecondary education;

(10) to encourage the development and implementation of programs that will require paid high-quality, work-based learning experiences;

(11) to motivate all youths, including low-achieving youths, school dropouts, and youths with disabilities, to stay in or return to school or a classroom setting and strive to succeed, by providing enriched learning experiences and assistance in obtaining good jobs and continuing their education in postsecondary educational institutions;

(12) to expose students to a broad array of career opportunities, and facilitate the selection of career majors, based on individual interests, goals, strengths, and abilities;

(13) to increase opportunities for minorities, women, and individuals with disabilities, by enabling individuals to prepare for careers that are not traditional for their race, gender, or disability; and

(14) to further the National Education Goals set forth in title I of the Goals 2000: Educate America Act [20 U.S.C. 5811 et seq.].

(b) Congressional intent

It is the intent of Congress that the Secretary of Labor and the Secretary of Education jointly administer this chapter in a flexible manner that—

(1) promotes State and local discretion in establishing and implementing statewide School-to-Work Opportunities systems and School-to-Work Opportunities programs; and

(2) contributes to reinventing government by—

(A) building on State and local capacity;

(B) eliminating duplication in education and training programs for youths by integrating such programs into 1 comprehensive system;

(C) maximizing the effective use of resources;

(D) supporting locally established initiatives;

(E) requiring measurable goals for performance; and

(F) offering flexibility in meeting such goals.

§ 6301. Declaration of policy and statement of purpose

(a) Statement of policy

(1) In general

The Congress declares it to be the policy of the United States that a high-quality education for all individuals and a fair and equal opportunity to obtain that education are a societal good, are a moral imperative, and improve the life of every individual, because the quality of our individual lives ultimately depends on the quality of the lives of others.

(2) Additional policy

The Congress further declares it to be the policy of the United States to expand the program authorized by this subchapter over the fiscal years 1996 through 1999 by increasing funding for this subchapter by at least \$750,000,000 over baseline each fiscal year and thereby increasing the percentage of eligible children served in each fiscal year with the intent of serving all eligible children by fiscal year 2004.

(b) Recognition of need

The Congress recognizes that—

(1) although the achievement gap between disadvantaged children and other children has been reduced by half over the past two decades, a sizable gap remains, and many segments of our society lack the opportunity to become well educated;

(2) the most urgent need for educational improvement is in schools with high concentrations of children from low-income families and achieving the National Education Goals will not be possible without substantial improvement in such schools;

(3) educational needs are particularly great for low-achieving children in our Nation's highest-poverty schools, children with limited English proficiency, children of migrant workers, children with disabilities, Indian children, children who are neglected or delinquent, and young children and their parents who are in need of family-literacy services;

(4) while this subchapter and other programs funded under this chapter contribute to narrowing the achievement gap between children in high-poverty and low-poverty schools, such programs need to become even more effective in improving schools in order to enable all children to achieve high standards; and

(5) in order for all students to master challenging standards in core academic subjects as described in the third National Education Goal described in section 5812(3) of this title, students and schools will need to maximize the time spent on teaching and learning the core academic subjects.

(c) What has been learned since 1988

To enable schools to provide all children a high-quality education, this subchapter builds upon the following learned information:

(1) All children can master challenging content and complex problem-solving skills. Research clearly shows that children, including low-achieving children, can succeed when expectations are high and all children are given the opportunity to learn challenging material.

(2) Conditions outside the classroom such as hunger, unsafe living conditions, homelessness, unemployment, violence, inadequate health care, child abuse, and drug and alcohol abuse can adversely affect children's academic achievement and must be addressed through the coordination of services, such as health and social services, in order for the Nation to meet the National Education Goals.

(3) Use of low-level tests that are not aligned with schools' curricula fails to provide adequate information about what children know and can do and encourages curricula and instruction that focus on the low-level skills measured by such tests.

(4) Resources are more effective when resources are used to ensure that children have full access to effective high-quality regular school programs and receive supplemental help through extended-time activities.

(5) Intensive and sustained professional development for teachers and other school staff, focused on teaching and learning and on helping children attain high standards, is too often not provided.

(6) Insufficient attention and resources are directed toward the effective use of technology in schools and the role technology can play in professional development and improved teaching and learning.

(7) All parents can contribute to their children's success by helping at home and becoming partners with teachers so that children can achieve high standards.

(8) Decentralized decisionmaking is a key ingredient of systemic reform. Schools need the resources, flexibility, and authority to design and implement effective strategies for bringing their children to high levels of performance.

(9) Opportunities for students to achieve high standards can be enhanced through a variety of approaches such as public school choice and public charter schools.

(10) Attention to academics alone cannot ensure that all children will reach high standards. The health and other needs of children that affect learning are frequently unmet, particularly in high-poverty schools, thereby necessitating coordination of services to better meet children's needs.

(11) Resources provided under this subchapter can be better targeted on the highest-poverty local educational agencies and schools that have children most in need.

(12) Equitable and sufficient resources, particularly as such resources relate to the quality of the teaching force, have an integral relationship to high student achievement.

(d) Statement of purpose

The purpose of this subchapter is to enable schools to provide opportunities for children served to acquire the knowledge and skills contained in the challenging State content standards and to meet the challenging State performance standards developed for all children. This purpose shall be accomplished by—

(1) ensuring high standards for all children and aligning the efforts of States, local educational agencies, and schools to help children served under this subchapter to reach such standards;

(2) providing children an enriched and accelerated educational program, including, when appropriate, the use of the arts, through schoolwide programs or through additional services that increase the amount and quality of instructional time so that children served under this subchapter receive at least the classroom instruction that other children receive;

(3) promoting schoolwide reform and ensuring access of children (from the earliest grades) to effective instructional strategies and challenging academic content that includes intensive complex thinking and problem-solving experiences;

(4) significantly upgrading the quality of instruction by providing staff in participating schools with substantial opportunities for professional development;

(5) coordinating services under all parts of this subchapter with each other, with other educational services, and, to the extent feasible, with health and social service programs funded from other sources;

(6) affording parents meaningful opportunities to participate in the education of their children at home and at school;

(7) distributing resources, in amounts sufficient to make a difference, to areas and schools where needs are greatest;

(8) improving accountability, as well as teaching and learning, by using State assessment systems designed to measure how well children served under this subchapter are achieving challenging State student performance standards expected of all children; and

(9) providing greater decisionmaking authority and flexibility to schools and teachers in exchange for greater responsibility for student performance.

(Pub. L. 89-10, title I, §1001, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3519.)

SUBPART 1—BASIC PROGRAM REQUIREMENTS

§ 6311. State plans

(a) Plans required

(1) In general

Any State desiring to receive a grant under this part shall submit to the Secretary a plan, developed in consultation with local educational agencies, teachers, pupil services per-

sonnel, administrators, other staff, and parents, that satisfies the requirements of this section and that is coordinated with other programs under this chapter, the Goals 2000: Educate America Act [20 U.S.C. 5801 et seq.], and other Acts, as appropriate, consistent with section 8856 of this title.

(2) Consolidation plan

A State plan submitted under paragraph (1) may be submitted as part of a consolidation plan under section 8852 of this title.

(b) Standards and assessments

(1) Challenging standards

(A) Each State plan shall demonstrate that the State has developed or adopted challenging content standards and challenging student performance standards that will be used by the State, its local educational agencies, and its schools to carry out this part, except that a State shall not be required to submit such standards to the Secretary.

(B) If a State has State content standards or State student performance standards developed under title III of the Goals 2000: Educate America Act [20 U.S.C. 5881 et seq.] and an aligned set of assessments for all students developed under such title, or, if not developed under such title, adopted under another process, the State shall use such standards and assessments, modified, if necessary, to conform with the requirements of subparagraphs (A) and (D) of this paragraph, and paragraphs (2) and (3).

(C) If a State has not adopted State content standards and State student performance standards for all students, the State plan shall include a strategy and schedule for developing State content standards and State student performance standards for elementary and secondary school children served under this part in subjects as determined by the State, but including at least mathematics and reading or language arts by the end of the one-year period described in paragraph (6), which standards shall include the same knowledge, skills, and levels of performance expected of all children.

(D) Standards under this paragraph shall include—

(i) challenging content standards in academic subjects that—

(I) specify what children are expected to know and be able to do;

(II) contain coherent and rigorous content; and

(III) encourage the teaching of advanced skills;

(ii) challenging student performance standards that—

(I) are aligned with the State's content standards;

(II) describe two levels of high performance, proficient and advanced, that determine how well children are mastering the material in the State content standards; and

(III) describe a third level of performance, partially proficient, to provide complete information about the progress of

¹ So in original. The comma probably should not appear.

the lower performing children toward achieving to the proficient and advanced levels of performance.

(E) For the subjects in which students will be served under this part, but for which a State is not required by subparagraphs (A), (B), and (C) to develop, and has not otherwise developed such standards, the State plan shall describe a strategy for ensuring that such students are taught the same knowledge and skills and held to the same expectations as are all children.

(2) Yearly progress

(A) Each State plan shall demonstrate, based on assessments described under paragraph (3), what constitutes adequate yearly progress of—

- (i) any school served under this part toward enabling children to meet the State's student performance standards; and
- (ii) any local educational agency that received funds under this part toward enabling children in schools receiving assistance under this part to meet the State's student performance standards.

(B) Adequate yearly progress shall be defined in a manner—

- (i) that is consistent with guidelines established by the Secretary that result in continuous and substantial yearly improvement of each local educational agency and school sufficient to achieve the goal of all children served under this part meeting the State's proficient and advanced levels of performance, particularly economically disadvantaged and limited English proficient children; and
- (ii) that links progress primarily to performance on the assessments carried out under this section while permitting progress to be established in part through the use of other measures.

(3) Assessments

Each State plan shall demonstrate that the State has developed or adopted a set of high-quality, yearly student assessments, including assessments in at least mathematics and reading or language arts, that will be used as the primary means of determining the yearly performance of each local educational agency and school served under this part in enabling all children served under this part to meet the State's student performance standards. Such assessments shall—

- (A) be the same assessments used to measure the performance of all children, if the State measures the performance of all children;
- (B) be aligned with the State's challenging content and student performance standards and provide coherent information about student attainment of such standards;
- (C) be used for purposes for which such assessments are valid and reliable, and be consistent with relevant, nationally recognized professional and technical standards for such assessments;
- (D) measure the proficiency of students in the academic subjects in which a State has

adopted challenging content and student performance standards and be administered at some time during—

- (i) grades 3 through 5;
- (ii) grades 6 through 9; and
- (iii) grades 10 through 12;

(E) involve multiple up-to-date measures of student performance, including measures that assess higher order thinking skills and understanding;

(F) provide for—

- (i) the participation in such assessments of all students;
- (ii) the reasonable adaptations and accommodations for students with diverse learning needs, necessary to measure the achievement of such students relative to State content standards; and
- (iii) the inclusion of limited English proficient students who shall be assessed, to the extent practicable, in the language and form most likely to yield accurate and reliable information on what such students know and can do, to determine such students' mastery of skills in subjects other than English;

(G) include students who have attended schools in a local educational agency for a full academic year but have not attended a single school for a full academic year, however the performance of students who have attended more than one school in the local educational agency in any academic year shall be used only in determining the progress of the local educational agency;

(H) provide individual student interpretive and descriptive reports, which shall include scores, or other information on the attainment of student performance standards; and

(I) enable results to be disaggregated within each State, local educational agency, and school by gender, by each major racial and ethnic group, by English proficiency status, by migrant status, by students with disabilities as compared to nondisabled students, and by economically disadvantaged students as compared to students who are not economically disadvantaged.

(4) Special rule

Assessment measures that do not meet the requirements of paragraph (3)(C) may be included as one of the multiple measures, if a State includes in the State plan information regarding the State's efforts to validate such measures.

(5) Language assessments

Each State plan shall identify the languages other than English that are present in the participating student population and indicate the languages for which yearly student assessments are not available and are needed. The State shall make every effort to develop such assessments and may request assistance from the Secretary if linguistically accessible assessment measures are needed. Upon request, the Secretary shall assist with the identification of appropriate assessment measures in the needed languages through the Office of Bilingual Education and Minority Languages Affairs.

(6) Standard and assessment development

(A) A State that does not have challenging State content standards and challenging State student performance standards, in at least mathematics and reading or language arts, shall develop such standards within one year of receiving funds under this part after the first fiscal year for which such State receives such funds after October 20, 1994.

(B) A State that does not have assessments that meet the requirements of paragraph (3) in at least mathematics and reading or language arts shall develop and test such assessments within four years (one year of which shall be used for field testing such assessment), of receiving funds under this part after the first fiscal year for which such State receives such funds after October 20, 1994, and shall develop benchmarks of progress toward the development of such assessments that meet the requirements of paragraph (3), including periodic updates.

(C) The Secretary may extend for one additional year the time for testing new assessments under subparagraph (B) upon the request of the State and the submission of a strategy to correct problems identified in the field testing of such new assessments.

(D) If, after the one-year period described in subparagraph (A), a State does not have challenging State content and challenging student performance standards in at least mathematics and reading or language arts, a State shall adopt a set of standards in these subjects such as the standards and assessments contained in other State plans the Secretary has approved.

(E) If, after the four-year period described in subparagraph (B), a State does not have assessments, in at least mathematics and reading or language arts, that meet the requirement of paragraph (3), and is denied an extension under subparagraph (C), a State shall adopt an assessment that meets the requirement of paragraph (3) such as one contained in other State plans the Secretary has approved.

(7) Transitional assessments

(A) If a State does not have assessments that meet the requirements of paragraph (3) and proposes to develop such assessments under paragraph (6)(B), the State may propose to use a transitional set of yearly statewide assessments that will assess the performance of complex skills and challenging subject matter.

(B) For any year in which a State uses transitional assessments, the State shall devise a procedure for identifying local educational agencies under paragraphs (3) and (7) of section 6317(d) of this title, and schools under paragraphs (1) and (7) of section 6317(c) of this title, that rely on accurate information about the academic progress of each such local educational agency and school.

(8) Requirement

Each State plan shall describe—

(A) how the State educational agency will help each local educational agency and school affected by the State plan develop the capacity to comply with each of the require-

ments of sections 6312(c)(1)(D), 6314(b), and 6315(c) of this title that is applicable to such agency or school; and

(B) such other factors the State deems appropriate to provide students an opportunity to achieve the knowledge and skills described in the challenging content standards adopted by the State.

Each State plan shall contain assurances that—

(1)(A) the State educational agency will implement a system of school support teams under section 6318(c) of this title, including provision of necessary professional development for those teams;

(C)(i) where educational service agencies exist, the State educational agency will consider providing professional development and technical assistance through such agencies; and

(ii) where educational service agencies do not exist, the State educational agency will consider providing professional development and technical assistance through other cooperative agreements such as through a consortium of local educational agencies;

(2) the State educational agency will notify local educational agencies and the public of the standards and assessments developed under this section, and of the authority to operate schoolwide programs, and will fulfill the State educational agency's responsibilities regarding local educational agency improvement and school improvement under section 6317 of this title, including such corrective actions as are necessary;

(2) Withholding

The Secretary may withhold funds for State administration and activities under section 6318 of this title until the Secretary determines that the State plan meets the requirements of this section.

If the State makes significant changes in its plan, such as the adoption of new State content standards and State student performance standards, new assessments, or a new definition of adequate progress, the State shall submit such information to the Secretary.

(f) Limitation on conditions

Nothing in this part shall be construed to authorize an officer or employee of the Federal Government to mandate, direct, or control a State, local educational agency, or school's specific instructional content or student performance standards and assessments, curriculum, or

program of instruction, as a condition of eligibility to receive funds under this part.

(g) Special rule

(e) State approval

(1) In general

Each local educational agency plan shall be filed according to a schedule established by the State educational agency, except that a local educational agency shall have not more

than one year after October 20, 1994, to have such plan provisionally approved by the State educational agency and not more than two years after October 20, 1994, to have such plan finally approved by the State educational agency.

(2) Approval

The State educational agency shall approve a local educational agency's plan only if the State educational agency determines that the local educational agency's plan will enable schools served under this part to substantially help all children served under this part meet the standards expected of all children described in section 6311(b)(1) of this title.

§ 6313. Eligible school attendance areas

(a) Determination

(1) In general

A local educational agency shall use funds received under this part only in eligible school attendance areas.

(2) Eligible school attendance areas

For the purposes of this part—

(A) the term “school attendance area” means, in relation to a particular school, the geographical area in which the children who are normally served by that school reside; and

(B) the term “eligible school attendance area” means a school attendance area in which the percentage of children from low-income families is at least as high as the percentage of children from low-income families in the local educational agency as a whole.

² So in original. Probably should be “affected”.

(3) Ranking order

If funds allocated in accordance with subsection (c) of this section are insufficient to serve all eligible school attendance areas, a local educational agency shall—

(A) annually rank, without regard to grade spans, such agency's eligible school attendance areas in which the concentration of children from low-income families exceeds 75 percent from highest to lowest according to the percentage of children from low-income families; and

(B) serve such eligible school attendance areas in rank order.

(4) Remaining funds

If funds remain after serving all eligible school attendance areas under paragraph (3), a local educational agency shall—

(A) annually rank such agency's remaining eligible school attendance areas from highest to lowest either by grade span or for the entire local educational agency according to the percentage of children from low-income families; and

(B) serve such eligible school attendance areas in rank order either within each grade-span grouping or within the local educational agency as a whole.

(5) Measures

The local educational agency shall use the same measure of poverty, which measure shall be the number of children ages 5 through 17 in poverty counted in the most recent census data approved by the Secretary, the number of children eligible for free and reduced priced lunches under the National School Lunch Act [42 U.S.C. 1751 et seq.], the number of children in families receiving assistance under the State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.], or the number of children eligible to receive medical assistance under the Medicaid program, or a composite of such indicators, with respect to all school attendance areas in the local educational agency—

(A) to identify eligible school attendance areas;

(B) to determine the ranking of each area; and

(C) to determine allocations under subsection (c) of this section.

(6) Exception

This subsection shall not apply to a local educational agency with a total enrollment of less than 1,000 children.

(7) Waiver for desegregation plans

The Secretary may approve a local educational agency's written request for a waiver of the requirements of subsections (a) and (c) of this section, and permit such agency to treat as eligible, and serve, any school that children attend with a State-ordered or a court-ordered school desegregation plan or a plan that continues to be implemented in accordance with a State-ordered or court-ordered desegregation plan, if (A) the number of economically disadvantaged children enrolled in the school is at least 25 percent of the

school's total enrollment; and (B) the Secretary determines on the basis of a written request from such agency and in accordance with such criteria as the Secretary establishes, that approval of that request would further the purposes of this part.

(b) Local educational agency discretion**(1) In general**

Notwithstanding subsection (a)(2) of this section, a local educational agency may—

(A) designate as eligible any school attendance area or school in which at least 35 percent of the children are from low-income families;

(B) use funds received under this part in a school that is not in an eligible school attendance area, if the percentage of children from low-income families enrolled in the school is equal to or greater than the percentage of such children in a participating school attendance area of such agency; and

(C) elect not to serve an eligible school attendance area or eligible school that has a higher percentage of children from low-income families if—

(i) the school meets the comparability requirements of section 6322(c) of this title;

(ii) the school is receiving supplemental funds from other State or local sources that are spent according to the requirements of section 6314 or 6315 of this title; and

(iii) the funds expended from such other sources equal or exceed the amount that would be provided under this part.

(2) Special rule

Notwithstanding paragraph (1)(C), the number of children attending private elementary and secondary schools who are to receive services, and the assistance such children are to receive under this part, shall be determined without regard to whether the public school attendance area in which such children reside is assisted under paragraph (1).

(c) Allocations**(1) In general**

A local educational agency shall allocate funds received under this part to eligible school attendance areas or eligible schools, identified under subsection (a) or (b) of this section, in rank order, on the basis of the total number of children from low-income families in each area or school.

(2) Special rule

(A) Except as provided in subparagraph (B), the per pupil amount of funds allocated to each school attendance area or school under paragraph (1) shall be at least 125 percent of the per pupil amount of funds a local educational agency received for that year under the poverty criteria described by the local educational agency in the plan submitted under section 6312 of this title, except that this paragraph shall not apply to a local educational agency that only serves schools in which the percentage of such children is 35 percent or greater.

(B) A local educational agency may reduce the amount of funds allocated under subparagraph (A) for a school attendance area or school by the amount of any supplemental State and local funds expended in that school attendance area or school for programs that meet the requirements of section 6314 or 6315 of this title.

(3) Reservation

A local educational agency shall reserve such funds as are necessary under this part to provide services comparable to those provided to children in schools funded under this part to serve—

(A) where appropriate, eligible homeless children who do not attend participating schools, including providing educationally related support services to children in shelters;

(B) children in local institutions for neglected or delinquent children; and

(C) where appropriate, neglected and delinquent children in community day school programs.

§ 6314. Schoolwide programs

(a) Use of funds for schoolwide programs

(1) In general

A local educational agency may use funds under this part, in combination with other

Federal, State, and local funds, in order to upgrade the entire educational program in a school described in subparagraph (A) or (B) if, for the initial year of the schoolwide program, the school meets either of the following criteria:

(A) For the school year 1995-1996—

(i) the school serves an eligible school attendance area in which not less than 60 percent of the children are from low-income families; or

(ii) not less than 60 percent of the children enrolled in the school are from such families.

(B) For the school year 1996-1997 and subsequent years—

(i) the school serves an eligible school attendance area in which not less than 50 percent of the children are from low-income families; or

(ii) not less than 50 percent of the children enrolled in the school are from such families.

(2) State assurances

(A) A local educational agency may start new schoolwide programs under this section only after the State educational agency provides written information to each local educational agency in the State that demonstrates that such State agency has established the statewide system of support and improvement required by subsections (c)(1) and (e) of section 6318 of this title.

(B) A school that desires to initiate a schoolwide program under this section prior to the establishment of the statewide system of support and improvement required in subsections (c)(1) and (e) of section 6318 of this title shall demonstrate to the local educational agency that such school has received high quality technical assistance and support from other providers of assistance such as comprehensive technical assistance centers, regional laboratories, institutions of higher education, educational service agencies, or other local consortia.

(3) Identification

(A) No school participating in a schoolwide program shall be required to identify particular children under this part as eligible to participate in a schoolwide program or to provide supplemental services to such children.

(B) A school participating in a schoolwide program shall use funds available to carry out this section only to supplement the amount of funds that would, in the absence of funds under this part, be made available from non-Federal sources for the school, including funds needed to provide services that are required by law for children with disabilities and children with limited English proficiency.

(4) Special rule

(A) Except as provided in subsection (b) of this section, the Secretary may, through publication of a notice in the Federal Register, exempt schoolwide programs under this section from statutory or regulatory provisions of any other noncompetitive formula grant program administered by the Secretary, or

any discretionary grant program administered by the Secretary (other than formula or discretionary grant programs under the Individuals with Disabilities Education Act [20 U.S.C. 1400 et seq.]), to support schoolwide programs, if the intent and purposes of such other programs are met.

(B) A school that chooses to use funds from such other programs shall not be relieved of the requirements relating to health, safety, civil rights, gender equity, student and parental participation and involvement, services to private school children, maintenance of effort, comparability of services, uses of Federal funds to supplement, not supplant non-Federal funds, or the distribution of funds to State or local educational agencies that apply to the receipt of funds from such programs.

(5) Professional development

Each school receiving funds under this part for any fiscal year shall devote sufficient resources to effectively carry out the activities described in subsection (b)(1)(D) of this section in accordance with section 6320 of this title for such fiscal year, except that a school may enter into a consortium with another school to carry out such activities.

(b) Components of schoolwide program

(1) In general

A schoolwide program shall include the following components:

(A) A comprehensive needs assessment of the entire school that is based on information on the performance of children in relation to the State content standards and the State student performance standards described in section 6311(b)(1) of this title.

(B) Schoolwide reform strategies that—

(i) provide opportunities for all children to meet the State's proficient and advanced levels of student performance described in section 6311(b)(1)(D) of this title;

(ii) are based on effective means of improving the achievement of children;

(iii) use effective instructional strategies, which may include the integration of vocational and academic learning (including applied learning and team teaching strategies), that—

§ 6315. Targeted assistance schools

(a) In general

In all schools selected to receive funds under section 6313(c) of this title that are ineligible for a schoolwide program under section 6314 of this title, or that choose not to operate such a schoolwide program, a local educational agency may use funds received under this part only for programs that provide services to eligible children under subsection (b) of this section identified as having the greatest need for special assistance.

§ 6317. Assessment and local educational agency and school improvement

(a) Local review

Each local educational agency receiving funds under this part shall—

(1) use the State assessments described in the State plan;

(2) use any additional measures or indicators described in the local educational agency's plan to review annually the progress of each school served under this part to determine whether the school is meeting, or making adequate progress as defined in section 6311(b)(2)(A)(i) of this title toward enabling its students to meet the State's student performance standards described in the State plan;

(3) publicize and disseminate to teachers and other staff, parents, students, and the community, the results of the annual review under paragraph (2) of all schools served under this part in individual school performance profiles that include statistically sound disaggregated results as required by section 6311(b)(3)(I) of this title; and

(4) provide the results of the local annual review to schools so that the schools can continually refine the program of instruction to help all children served under this part in those schools meet the State's student performance standards.

(b) Designation of distinguished schools

Each State educational agency and local educational agency receiving funds under this part shall designate distinguished schools in accordance with section 6318 of this title.

(c) School improvement

(1) In general

A local educational agency shall identify for school improvement any school served under this part that—

(A) has been in program improvement under section 1020 of the Elementary and Secondary Education Act of 1965 (as such section was in effect on the day preceding October 20, 1994), for at least two consecutive school years prior to such day;

(B) has not made adequate progress as defined in the State's plan under section 6311(b)(2)(A)(i) of this title for two consecutive school years, except that—

(i) this subparagraph shall not apply to a school if almost every student in such

school is meeting the State's advanced level of performance; or

(ii) in the case of a targeted assistance school, such school may be reviewed on the progress of only those students that have been or are served under this part; or

(C) has failed to meet the criteria established by the State through the State's transitional procedure under section 6311(b)(7)(B) of this title for two consecutive years.

(2) Requirement

(A) Each school identified under paragraph (1) shall—

(i) in consultation with parents, the local educational agency, and the school support team, develop or revise a school plan in ways that have the greatest likelihood of improving the performance of participating children in meeting the State's student performance standards; and

(ii) submit the plan or revised plan to the local educational agency for approval.

(B) Before identifying a school for school improvement under paragraph (1), the local educational agency shall provide the school with an opportunity to review the school-level data, including assessment data, on which such identification is based. If the school believes that such identification for school improvement is in error for statistical or other substantive reasons, such school may provide evidence to the local educational agency to support such belief.

(C) During the first year immediately following such identification, the school shall implement such school's plan or revised plan.

(3) Professional development

(A) Each school identified under paragraph (1) shall, as part of the school plan under paragraph (2), improve the skills of its staff by providing effective professional development activities. A school shall demonstrate such school's compliance with this paragraph by—

(i) devoting to such activities, over two consecutive years, an amount equivalent to at least 10 percent of the funds received by the school under this part during one fiscal year; or

(ii) otherwise demonstrating that such school is effectively carrying out professional development activities.

(B) A school may use funds from any source to meet the requirements of this subsection.

(C) Decisions about how to use the funds made available under this part which the school makes available for professional development shall be made by teachers, principals, and other school staff in that school.

(4) Technical assistance

(A) For each school identified under paragraph (1), the local educational agency shall provide technical or other assistance as the school develops and implements such school's plan or revised plan, such as a joint plan between the local educational agency and school that addresses specific elements of student performance problems and that specifies school and local educational agency respon-

sibilities under the plan, and waivers or modifications of requirements of local educational agency policy or regulation that impede the ability of the school to educate students.

(B) Such technical assistance may be provided directly by the local educational agency, through mechanisms authorized under section 6318 of this title, or with the local educational agency's approval, by an institution of higher education, a private nonprofit organization, an educational service agency, a comprehensive regional assistance center under part A of subchapter XIII of this chapter, or other entities with experience in helping schools improve achievement.

(5) Corrective action

(A) Except as provided in subparagraph (C), after providing technical assistance pursuant to paragraph (4) and taking other remediation measures, the local educational agency may take corrective action at any time against a school that has been identified under paragraph (1), but, during the third year following identification under paragraph (1), shall take such action against any school that still fails to make adequate progress.

(B)(i) Corrective actions are those, consistent with State and local law, determined and made public and disseminated by the local educational agency, which may include—

(I) withholding funds;

(II) interagency collaborative agreements between the school and other public agencies to provide health, counseling, and other social services needed to remove barriers to learning;

(III) revoking authority for a school to operate a schoolwide program;

(IV) decreasing decisionmaking authority at the school level;

(V) making alternative governance arrangements such as the creation of a public charter school;

(VI) reconstituting the school staff; and

(VII) authorizing students to transfer, including transportation costs, to other public schools served by the local educational agency.

(ii) Notwithstanding clause (i), corrective actions taken pursuant to this part shall not include the actions described in subclause (I), (III), (IV), (VI), or (VII) of clause (i) until the State has developed assessments that meet the requirements of subparagraph (C) of section 6311(b)(3) of this title.

(C) Prior to implementing any corrective action, the local educational agency may refrain from such corrective action for one additional year to the extent that the failure to make progress can be attributed to extenuating circumstances as determined by the local educational agency.

(D) A school that is no longer operating its schoolwide program due to a corrective action may not resume operation of such a program until the local educational agency determines that the school has adequately reformed its schoolwide program plan to enable the school to make adequate progress toward meeting the State's challenging student performance standards.

(6) State educational agency responsibilities

The State educational agency shall—

(A) make technical assistance under section 6318 of this title available to the schools farthest from meeting the State's challenging student performance standards, if requested by the school or local educational agency; and

(B) if such agency determines that a local educational agency failed to carry out the local educational agency's responsibilities under paragraphs (4) and (5), take such corrective actions as the State educational agency deems appropriate and which are in compliance with State law.

(7) Special rule

Schools that, for at least two of the three years following identification under paragraph (1), make adequate progress toward meeting the State's proficient and advanced levels of performance shall no longer need to be identified for school improvement.

(d) State review and local educational agency improvement

(1) In general

A State educational agency shall—

(A) annually review the progress of each local educational agency receiving funds under this part to determine whether schools receiving assistance under this part are making adequate progress as defined in section 6311(b)(2)(A)(ii) of this title toward meeting the State's student performance standards; and

(B) publicize and disseminate to local educational agencies, teachers and other staff, parents, students, and the community the results of the State review, including statistically sound disaggregated results, as required by section 6311(b)(3)(I) of this title.

(2) Rewards

In the case of a local educational agency that for three consecutive years has met or exceeded the State's definition of adequate progress as defined in section 6311(b)(2)(A)(ii) of this title, the State may make institutional and individual rewards of the kinds described for individual schools in paragraph (2) of section 6318(c) of this title.

(3) Identification

(A) A State educational agency shall identify for improvement any local educational agency that—

(i) for two consecutive years, is not making adequate progress as defined in section 6311(b)(2)(A)(ii) of this title in schools served under this part toward meeting the State's student performance standards, except that schools served by the local educational agency that are operating targeted assistance programs may be reviewed on the basis of the progress of only those students served under this part; or

(ii) has failed to meet the criteria established by the State through such State's transitional procedure under section 6311(b)(7)(B) of this title for two consecutive years.

(B) Before identifying a local educational agency for improvement under paragraph (1), the State educational agency shall provide the local educational agency with an opportunity to review the school-level data, including assessment data, on which such identification is based. If the local educational agency believes that such identification for improvement is in error due to statistical or other substantive reasons, such local educational agency may provide evidence to the State educational agency to support such belief.

(4) Local educational agency revisions

(A) Each local educational agency identified under paragraph (3) shall, in consultation with schools, parents, and educational experts, revise its local educational agency plan under section 6312 of this title in ways that have the greatest likelihood of improving the performance of schools served by the local educational agency under this part in meeting the State's student performance standards.

(B) Such revision shall include determining why the local educational agency's plan failed to bring about increased achievement.

(5) State educational agency responsibility

(A) For each local educational agency identified under paragraph (3), the State educational agency shall—

(i) provide technical or other assistance, if requested, as authorized under section 6318 of this title, to better enable the local educational agency to—

(I) develop and implement the local educational agency's revised plan; and

(II) work with schools needing improvement; and

(ii) make available to the local educational agencies farthest from meeting the State's standards, if requested, assistance under section 6318 of this title.

(B) Technical or other assistance may be provided by the State educational agency directly, or by an institution of higher education, a private nonprofit organization, an educational service agency or other local consortium, a technical assistance center, or other entities with experience in assisting local educational agencies improve achievement, and may include—

(i) interagency collaborative agreements between the local educational agency and other public agencies to provide health, pupil services, and other social services needed to remove barriers to learning; and

(ii) waivers or modification of requirements of State law or regulation (in States in which such waivers are permitted) that impede the ability of a local educational agency to educate students.

(6) Corrective action

(A) Except as provided in subparagraph (C), after providing technical assistance pursuant to paragraph (5) and taking other remediation measures, the State educational agency may take corrective action at any time against a local educational agency that has been identified under paragraph (3), but, during the

fourth year following identification under paragraph (3), shall take such action against any local educational agency that still fails to make adequate progress.

(B)(i) Corrective actions are those actions, consistent with State law, determined and made public and disseminated by the State educational agency, which may include—

(I) the withholding of funds;

(II) reconstitution of school district personnel;

(III) removal of particular schools from the jurisdiction of the local educational agency and establishment of alternative arrangements for public governance and supervision of such schools;

(IV) appointment by the State educational agency of a receiver or trustee to administer the affairs of the local educational agency in place of the superintendent and school board;

(V) the abolition or restructuring of the local educational agency;

(VI) the authorizing of students to transfer from a school operated by one local educational agency to a school operated by another local educational agency; and

(VII) a joint plan between the State and the local educational agency that addresses specific elements of student performance problems and that specifies State and local responsibilities under the plan.

(ii) Notwithstanding clause (i), corrective actions taken pursuant to this part shall not include the actions described in subclauses (I), (II), and (III) of clause (i) until the State has developed assessments that meet the requirements of paragraph (3)(C) of section 6311(b) of this title.

(C) Prior to implementing any corrective action, the State educational agency shall provide due process and a hearing (if State law provides for such due process and a hearing) to any local educational agency identified under paragraph (3) and may refrain from such corrective action for one year after the four-year period described in subparagraph (A) to the extent that the failure to make progress can be attributed to such extenuating circumstances as determined by the State educational agency.

(7) Special rule

Local educational agencies that for at least two of the three years following identification under paragraph (3) make adequate progress toward meeting the State's standards no longer need to be identified for local educational agency improvement.

(e) Construction

Nothing in this section shall be construed to alter or otherwise affect the rights, remedies, and procedures afforded school or school district employees under Federal, State, or local laws (including applicable regulations or court orders) or under the terms of collective bargaining agreements, memoranda of understanding, or other agreements between such employees and their employers.

§ 6318. State assistance for school support and improvement

(a) System for support

(1) State support

Each State educational agency shall establish a statewide system of intensive and sustained support and improvement for schools receiving funds under this part, including schoolwide programs and schools in need of program improvement, in order to increase the opportunity for all students in such schools to meet the State’s content standards and student performance standards.

(2) Meeting requirements

Funds reserved under section 6303(a) of this title or appropriated under section 6302(f) of this title shall be used to meet the requirements of this section. In addition to such funds a State educational agency may use State administrative funds reserved under section 6513(c) of this title to meet such requirements.

(b) Regional centers

Such a statewide system shall work with and receive support and assistance from the comprehensive regional technical assistance centers

under part A of subchapter XIII of this chapter and the educational regional laboratories under section 6041(h) of this title.

(c) Provisions

The system shall include at a minimum, the following:

(1) School support teams

(A) Each State educational agency, in consultation with local educational agencies and schools, shall establish a system of school support teams to provide information and assistance to schoolwide programs and to assist such programs in providing an opportunity to all students to meet the State’s student performance standards.

(B) If funds are sufficient, school support teams shall provide information and assistance to—

(i) schools—

(I) in which the number of students in poverty is equal to or greater than 75 percent of the total number of students enrolled in such school; and

(II) identified as in need of improvement under section 6317(c)(1) of this title; and

(ii) other schools in need of improvement.

(C) Each such team shall be composed of persons, including teachers, pupil services personnel, representatives of organizations knowledgeable about successful schoolwide projects or comprehensive school reform (especially distinguished educators described in paragraph (3)), and other persons who are knowledgeable about research and practice on teaching and learning, particularly about strategies for improving the educational opportunities for low-achieving students (including alternative and applied learning), such as representatives of institutions of higher education, regional educational laboratories or research centers, and outside consultant groups.

(D) A school support team shall work cooperatively with each school and make recommendations as the school develops the school’s schoolwide program plan or school improvement plan, review each plan, and make recommendations to the school and the local educational agency.

(E) During the operation of the schoolwide program or during school improvement activities, a school support team shall—

(i) periodically review the progress of the school in enabling children in the school to meet the State’s student performance standards under this part;

(ii) identify problems in the design and operation of the instructional program; and

(iii) make recommendations for improvement to the school and the local educational agency.

(2) Distinguished schools

(A) Each State shall designate as a distinguished school any school served under this part which, for three consecutive years, has exceeded the State’s definition of adequate progress as defined in section 6311(b)(2)(A)(i) of this title, and, any school in which—

(i) virtually all students have met the State's advanced level of student performance; and

(ii) equity in participation and achievement of students by sex has been achieved or significantly improved.

(B) Schools designated under this paragraph may serve as models and provide support to other schools, especially schoolwide programs and schools in school improvement, to assist such schools in meeting the State's student performance standards.

(C) States shall use funds reserved under section 6303(a) of this title and funds made available under section 6302(f) of this title to allow schools identified under this paragraph to carry out the activities described in subparagraph (B) and may use such funds to provide awards to such schools to further such school's education programs under this part, provide additional incentives for continued success, and reward individuals or groups in the school for exemplary performance.

(D) A local educational agency may also recognize the success of a distinguished school by providing additional institutional and individual rewards, such as greater decisionmaking authority at the school building level, increased access to resources or supplemental services such as summer programs that may be used to sustain or increase success, additional professional development opportunities, opportunities to participate in special projects, and individual financial bonuses.

(3) Distinguished educators

(A) In order to provide assistance to schools and local educational agencies identified as needing improvement and schools participating in schoolwide programs, each State, in consultation with local educational agencies and using funds reserved under section 6303(a) of this title and made available under section 6302(f) of this title, shall establish a corps of distinguished educators.

(B) When possible, distinguished educators shall be chosen from schools served under this part that have been especially successful in enabling children to meet or make outstanding progress toward meeting the State's student performance standards, such as the schools described in paragraph (2).

(C) Distinguished educators shall provide, as part of the statewide system, intensive and sustained assistance to the schools and local educational agencies farthest from meeting the State's student performance standards and to schoolwide programs as such programs develop and implement their plans, including participation in the support teams described in paragraph (1).

(d) Implementation

In order to implement this section funds reserved under section 6303(a) of this title and funds made available under section 6302(f) of this title may be used by a State for release time for teachers and administrators, travel, training, and other related costs.

(e) Alternatives

The State may devise additional approaches to providing the assistance described in paragraphs

(1) and (3) of subsection (c) of this section, such as providing assistance through institutions of higher education and educational service agencies or other local consortia, and the State may seek approval from the Secretary to use funds reserved under section 6303 of this title and funds made available under section 6302(f) of this title for such approaches as part of the State plan.

(Pub. L. 89-10, title I, §1117, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3548.)

Such activities shall be planned and implemented with meaningful consultation with parents of participating children.

(2) Written policy

Each local educational agency that receives funds under this part shall develop jointly with, agree upon with, and distribute to, parents of participating children a written parent involvement policy that is incorporated into the local educational agency's plan developed under section 6312 of this title, establishes the expectations for parent involvement, and describes how the local educational agency will—

(D) coordinate and integrate parental involvement strategies under this part with parental involvement strategies under other programs, such as Head Start, Even Start, the Parents as Teachers Program, the Home Instruction Program for Preschool Youngsters, and State-run preschool programs;

(E) conduct, with the involvement of parents, an annual evaluation of the content and effectiveness of the parental involvement policy developed under this section—

(i) to determine the effectiveness of the policy in increasing the participation of parents; and

(ii) to identify barriers to greater participation by parents in activities authorized by this section, giving particular attention to parents who are economically disadvantaged, are disabled, have limited

English proficiency, have limited literacy, or are of any racial or ethnic minority background; and

(F) use the findings of the evaluations described in subparagraph (E) in designing strategies for school improvement and revising, if necessary, the parental involvement policies described in this subsection and subsection (b)(1) of this section.

(3) Reservation

(A) Each local educational agency shall reserve not less than 1 percent of such agency's allocation under this part to carry out this section, including family literacy and parenting skills, except that this paragraph shall not apply if 1 percent of such agency's allocation under this part (other than funds allocated under section 6302(e) of this title) for the fiscal year for which the determination is made is \$5,000 or less.

(B) Parents of children receiving services under this part shall be involved in the decisions regarding how funds reserved under subparagraph (A) are allotted for parental involvement activities.

(b) School parental involvement policy

(1) In general

Such policy shall be updated periodically to meet the changing needs of parents and the school.

(2) Special rule

If the school has a parental involvement policy that applies to all parents, such school may amend that policy, if necessary, to meet the requirements of this subsection.

(3) Amendment

If the local educational agency has a school district-level parental involvement policy that applies to all parents, such agency may amend that policy, if necessary, to meet the requirements of this subsection.

(4) Parental comments

If the plan under section 6312 of this title is not satisfactory to the parents of participating children, the local educational agency shall submit any parent comments with such plan when such local educational agency submits the plan to the State.

For fiscal year 1995, notwithstanding subsection (b) of this section and without regard to amounts available for delinquent children under subpart 2 of part D of this subchapter, the amount made available to each local educational agency under such section 1005 shall be at least 85 percent of the amount such local educational agency received for the preceding year under such section 1005.

(2) Fiscal year 1996

Notwithstanding subsection (b) of this section and without regard to amounts available for delinquent children under subpart 2 of part D of this subchapter, for fiscal year 1996 the total amount made available to each local educational agency under each of sections 6333 and 6334 of this title for any fiscal year shall be at least 100 percent of the total amount such local educational agency was allocated under such sections (or their predecessor authorities) for the preceding fiscal year.

(3) Fiscal years 1997 through 1999

For fiscal years 1997 through 1999, notwithstanding subsection (b) of this section and without regard to amounts available for delinquent children under subpart 2 of part D of this subchapter, the amount made available to each local educational agency under each of sections 6333 and 6335 of this title shall be at least 95 percent of the previous year's amount if the number of children counted for grants under section 6333 of this title is at least 30 percent of the total number of children aged 5 to 17 years, inclusive, in the local educational agency, 90 percent of the previous year amount if this percentage is between 15 percent and 30 percent, and 85 percent if this percentage is below 15 percent. For fiscal years 1997 and 1998, in calculating grants on the basis of population data for counties, the Secretary shall apply the hold-homeless² percentages in the preceding sentence to counties. For fiscal years 1996 through 1998, if the Secretary's allocation for a county is not sufficient to meet the hold-harmless requirements of this paragraph for every local educational agency within that county, then the State educational agency shall reallocate funds proportionately from all other local educational agencies in the State that are receiving funds

in excess of the hold-harmless amounts specified in this paragraph.

(d) Ratable reductions

(1) In general

If the sums made available under this part for any fiscal year are insufficient to pay the full amounts that all States are eligible to receive under subsection (c) of this section for such year, the Secretary shall ratably reduce such amounts for such year.

(2) Additional funds

If additional funds become available for making payments under subsection (c) of this section for such fiscal year, amounts that were reduced under paragraph (1) shall be increased on the same basis as such amounts reduced.

(e) "State" defined

For the purpose of this section and sections 6333 and 6335 of this title, the term State means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6333, 6334, 6335 of this title; title 42 section 11432.

§ 6333. Basic grants to local educational agencies

(a) Amount of grants

(1) Grants for local educational agencies and Puerto Rico

The grant which a local educational agency in a State is eligible to receive under this subpart for a fiscal year shall (except as provided in section 6337 of this title), be determined by multiplying the number of children counted under subsection (c) of this section by 40 percent of the amount determined under the next sentence. The amount determined under this sentence shall be the average per pupil expenditure in the State except that—

(A) if the average per pupil expenditure in the State is less than 80 percent of the average per pupil expenditure in the United States, such amount shall be 80 percent of the average per pupil expenditure in the United States; or

(B) if the average per pupil expenditure in the State is more than 120 percent of the average per pupil expenditure in the United States, such amount shall be 120 percent of the average per pupil expenditure in the United States.

(2) Basis for calculating grants

For fiscal years 1995 through 1998, grants shall be calculated by the Secretary on the

² So in original. Probably should be "hold-harmless".

basis of the number of children counted under subsection (c) of this section for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations published by the Secretary. In any State in which a large number of local educational agencies overlap county boundaries, the State educational agency may apply to the Secretary for authority during any particular fiscal year to make the allocations under this part (other than section 6334 of this title) directly to local educational agencies without regard to the counties. If the Secretary approves an application of a State educational agency for a particular year under this subparagraph, the State educational agency shall provide assurances that—

(A) such allocations will be made using precisely the same factors for determining a grant as are used under this part;

(B) such allocations will be made using alternative data approved by the Secretary that the State determines best reflects the distribution of children in poor families and is adjusted to be equivalent in proportion to the number of children determined in accordance with subsection (c) of this section; or

(C) such allocations will be made using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.

In addition, the State educational agency shall provide assurances that a procedure will be established through which local educational agencies dissatisfied with the determinations made by the State educational agency may appeal directly to the Secretary for a final determination. Beginning in fiscal year 1999, grants shall be calculated by the Secretary on the basis of population data compiled for local educational agencies, unless the Secretary and the Secretary of Commerce determine that use of the updated population data would be inappropriate or unreliable taking into consideration the recommendations of the study to be conducted by the National Academy of Sciences. If the Secretary and the Secretary of Commerce determine that some or all of the data referred to in this paragraph are inappropriate or unreliable, the Secretaries shall jointly issue a report setting forth their reasons in detail. In years when grants are calculated by the Secretary on the basis of local educational agency data, for each local educational agency serving an area with a total population of at least 20,000 persons, the grant under this section shall be the amount determined by the Secretary. For local educational agencies serving areas with total populations of fewer than 20,000 persons, the State educational agency may either—

(i) distribute to such local educational agencies grants under this section equal to the amounts determined by the Secretary; and

(ii) use an alternative method, approved by the Secretary, to distribute the share of the State's total grants under this section that is based on local educational agencies with

total populations of fewer than 20,000 persons. Such an alternative method of distributing grants under this section among a State's local educational agencies serving areas with total populations of fewer than 20,000 persons shall be based upon population data that the State educational agency determines best reflect the current distribution of children in poor families among the State's local educational agencies serving areas with total populations of fewer than 20,000 persons. If a local educational agency serving an area with total population of less than 20,000 persons is dissatisfied with the determination of its grant by the State education agency, then such local educational agency may appeal this determination to the Secretary. The Secretary must respond to this appeal within 45 days of receipt.

(3) Puerto Rico

For each fiscal year, the Secretary shall determine the percentage which the average per pupil expenditure in the Commonwealth of Puerto Rico is of the lowest average per pupil expenditure of any of the 50 States. The grant which the Commonwealth of Puerto Rico shall be eligible to receive under this section for a fiscal year shall be the amount arrived at by multiplying the number of children counted under subsection (c) of this section for the Commonwealth of Puerto Rico by the product of—

(A) the percentage determined under the preceding sentence; and

(B) 32 percent of the average per pupil expenditure in the United States.

(4) "State" defined

For purposes of this subsection, the term "State" does not include Guam, American Samoa, the Virgin Islands, the Northern Mariana Islands, and Palau.

(b) Minimum number of children to qualify

Subject to the succeeding sentence, a local educational agency shall be eligible for a basic grant for a fiscal year under this subpart only if the number of children counted under subsection (c) of this section in the school district of such local educational agency is at least 10. Beginning in fiscal year 1996, no local educational agency shall be eligible for a grant under this section if the number of children counted for grants under this section is equal to 2 percent or less of the total school age population in the local educational agency. For fiscal years 1996 through 1998, grants not made as a result of applying the preceding sentence shall be reallocated by the State educational agency to other eligible local educational agencies in the State in proportion to the distribution of other funds under this section.

(c) Children to be counted

(1) Categories of children

The number of children to be counted for purposes of this section is the aggregate of—

(A) the number of children aged 5 to 17, inclusive, in the school district of the local educational agency from families below the poverty level as determined under paragraph (2);

(B) the number of children aged 5 to 17, inclusive, in the school district of such agency from families above the poverty level as determined under paragraph (5); and

(C) the number of children aged 5 to 17, inclusive, in the school district of such agency in institutions for neglected and delinquent children (other than such institutions operated by the United States), but not counted pursuant to subpart 1 of part D of this subchapter for the purposes of a grant to a State agency, or being supported in foster homes with public funds.

(2) Determination of number of children

For the purposes of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families below the poverty level on the basis of the most recent satisfactory data, described in paragraph (3), available from the Department of Commerce. For fiscal year 1999 and beyond, the District of Columbia and the Commonwealth of Puerto Rico shall be treated as individual local educational agencies. If a local educational agency contains two or more counties in their entirety, then each county will be treated as if such county were a separate local educational agency for purposes of calculating grants under this part. The total of grants for such counties shall be allocated to such a local educational agency, which local educational agency shall distribute to schools in each county within such agency a share of the local educational agency's total grant that is no less than the county's share of the population counts used to calculate the local educational agency's grant.

(3) Population updates

In fiscal year 1997 and every 2 years thereafter, the Secretary shall use updated data on the number of children, aged 5 to 17, inclusive, from families below the poverty level for counties or local educational agencies, published by the Department of Commerce, unless the Secretary and the Secretary of Commerce determine that use of the updated population data would be inappropriate or unreliable, taking into consideration the recommendations of the study to be conducted by the National Academy of Sciences. If the Secretary and the Secretary of Commerce determine that some or all of the data referred to in this paragraph are inappropriate or unreliable, they shall jointly issue a report setting forth their reasons in detail. In determining the families which are below the poverty level, the Secretary shall utilize the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census, in such form as those criteria have been updated by increases in the Consumer Price Index for all urban consumers, published by the Bureau of Labor Statistics.

(4) Study

(A) The Secretary of Education shall, within 30 days after October 20, 1994, contract with the National Academy of Sciences (hereafter in this section referred to as the "Academy") to study the program to produce intercensal

poverty data for small geographic areas and certain age cohorts being developed by the Bureau of the Census.

(B) In conducting its study, the Academy shall consider such matters as—

(i) the methodology used to produce and publish intercensal poverty data, and possible alternative methods to improve the usefulness of the data for Federal program purposes;

(ii) the availability of alternative indicators of poverty for small geographic areas, against which the poverty data produced and published by the Bureau of the Census could be compared;

(iii) the reliability of the poverty data produced and published by the Bureau of the Census, particularly for less populous geographic areas;

(iv) the reliability of intercensal poverty data produced and published by the Bureau of the Census, as compared over time to similar data produced by the Bureau of the Census during the most recent decennial census; and

(v) the usefulness of poverty data produced and published by the Bureau of the Census for Federal programs that allocate funds to State and sub-State areas based, in whole or in part, on such data.

(C) The Academy shall submit to the Secretary and the Secretary of Commerce, as well as to the Committee on Education and Labor and the Committee on Post Office and Civil Service of the House of Representatives and the Committee on Labor and Human Resources and the Committee on Governmental Affairs of the Senate—

(i) not later than 18 months after the date on which a contract is entered into under subsection (a) of this section, and not later than every 18 months thereafter, such interim reports on the Academy's activities under this chapter that the Academy deems appropriate, including a detailed statement of the Academy's findings and conclusions with respect to any poverty data which the Bureau of the Census publishes and produces, within 90 days of such publication; and

(ii) not later than December 31, 1998, a final report which shall include a more detailed statement of the Academy's findings and conclusions with respect to the use of any intercensal poverty data produced and published by the Bureau of the Census as the basis for allocating Federal funds under this chapter.

(D) Of the funds appropriated under section 6302(f) of this title, the Secretary shall use such sums as are necessary in each of fiscal years 1995, 1996, 1997, 1998, and 1999 to carry out the provisions of this paragraph.

(5) Other children to be counted

For purposes of this section, the Secretary shall determine the number of children aged 5 to 17, inclusive, from families above the poverty level on the basis of the number of such children from families receiving an annual in-

come, in excess of the current criteria of poverty, from payments under a State program funded under part A of title IV of the Social Security Act [42 U.S.C. 601 et seq.]; and in making such determinations the Secretary shall utilize the criteria of poverty used by the Bureau of the Census in compiling the most recent decennial census for a family of 4 in such form as those criteria have been updated by increases in the Consumer Price Index for all urban consumers, published by the Bureau of Labor Statistics. The Secretary shall determine the number of such children and the number of children of such ages living in institutions for neglected or delinquent children, or being supported in foster homes with public funds, on the basis of the caseload data for the month of October of the preceding fiscal year (using, in the case of children described in the preceding sentence, the criteria of poverty and the form of such criteria required by such sentence which were determined for the calendar year preceding such month of October) or, to the extent that such data are not available to the Secretary before January of the calendar year in which the Secretary's determination is made, then on the basis of the most recent reliable data available to the Secretary at the time of such determination. The Secretary of Health and Human Services shall collect and transmit the information required by this subparagraph to the Secretary not later than January 1 of each year.

(6) Estimate

When requested by the Secretary, the Secretary of Commerce shall make a special updated estimate of the number of children of such ages who are from families below the poverty level (as determined under subparagraph (A) of this paragraph¹) in each school district, and the Secretary is authorized to pay (either in advance or by way of reimbursement) the Secretary of Commerce the cost of making this special estimate. The Secretary of Commerce shall give consideration to any request of the chief executive of a State for the collection of additional census information. For purposes of this section, the Secretary shall consider all children who are in correctional institutions to be living in institutions for delinquent children.

(d) State minimum

Notwithstanding subsection (b)(1) or (d) of section 6332 of this title, the aggregate amount allotted for all local educational agencies within a State may not be less than the lesser of—

- (1) 0.25 percent of total grants under this section; or
- (2) the average of—
 - (A) one-quarter of 1 percent of the total amount available for such fiscal year under this section; and
 - (B) the number of children in such State counted under subsection (c) of this section in the fiscal year multiplied by 150 percent of the national average per pupil payment made with funds available under this section for that year.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2341, 6332, 6334, 6335, 6336, 6337 of this title.

§ 6334. Concentration grants to local educational agencies

(a) Eligibility for and amount of grants

(1) In general

(A) Except as otherwise provided in this paragraph, each local educational agency, in a State other than Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, and Palau, which is eligible for a grant under this part for any fiscal year shall be eligible for an additional grant under this section for that fiscal year if—

- (i) the number of children counted under section 6333(c) of this title in the county (for

fiscal years 1996 through 1998), or local educational agency (for fiscal years beginning with 1999) for the fiscal year exceeds 6,500; or

(ii) the number of children counted under section 6333(c) of this title exceeds 15 percent of the total number of children aged 5 to 17, inclusive, in the county (for fiscal years 1996 through 1998), or local educational agency (for fiscal years beginning with 1999) in that fiscal year.

(B) Notwithstanding such subsections (b)(1) and (d) of section 6332 of this title, no State described in subparagraph (A) shall receive less than the lesser of—

- (i) 0.25 percent of total grants; or
- (ii) the average of—

(I) one-quarter of 1 percent of the sums available to carry out this section for such fiscal year; and

(II) the greater of—

(aa) \$340,000; or

(bb) the number of children in such State counted for purposes of this section in that fiscal year multiplied by 150 percent of the national average per pupil payment made with funds available under this section for that year.

(2) Special rule

For each county or local educational agency eligible to receive an additional grant under this section for any fiscal year the Secretary shall determine the product of—

(A) the number of children counted under section 6333(c) of this title for that fiscal year; and

(B) the quotient resulting from the division of the amount determined for those agencies under section 6333(a)(1) of this title for the fiscal year for which the determination is being made divided by the total number of children counted under section 6333(c) of this title for that agency for fiscal year.

(3) Amount

The amount of the additional grant for which an eligible local educational agency or county is eligible under this section for any fiscal year shall be an amount which bears the same ratio to the amount available to carry out this section for that fiscal year as the product determined under paragraph (2) for such local educational agency for that fiscal year bears to the sum of such products for all local educational agencies in the United States for that fiscal year.

(4) Suballocation

For fiscal years 1996 through 1998, county amounts shall be suballocated to local educational agencies meeting the criteria of paragraph (1)(A) by State educational agencies, in accordance with regulations published by the Secretary. For fiscal years 1995 through 1998, grants shall be calculated by the Secretary on the basis of the number of children counted under section 6333(c) of this title for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations published by the Secretary. In any State in which a large number of local educational agencies

overlap county boundaries, the State educational agency may apply to the Secretary for authority during any particular fiscal year to make the allocations under this part (other than this section) directly to local educational agencies without regard to the counties. If the Secretary approves an application of a State educational agency for a particular year under this paragraph, the State educational agency shall provide assurances that—

(A) such allocations will be made using precisely the same factors for determining a grant as are used under this part;

(B) such allocations will be made using alternative data approved by the Secretary that the State determines best reflects the distribution of children in poor families and is adjusted to be equivalent in proportion to the number of children determined in accordance with section 6333(c) of this title; or

(C) such allocations will be made using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.

In addition, the State educational agency shall provide assurances that a procedure will be established through which local educational agencies dissatisfied with the determinations made by the State educational agency may appeal directly to the Secretary for a final determination. A State may reserve not more than 2 percent of its allocations in fiscal years 1996 through 1998 under this section for the purpose of making grants to local educational agencies that meet the criteria of clause (i) or (ii) of paragraph (1)(A), but are in ineligible counties. For fiscal years beginning with 1999, for each local educational agency serving an area with a total population of at least 20,000 persons, the grant under this section shall be the amount determined by the Secretary. For local educational agencies serving areas with total populations of fewer than 20,000 persons, the State educational agency may either (i) distribute to such local educational agencies grants under this section equal to the amounts determined by the Secretary; or (ii) use an alternative method, approved by the Secretary, to distribute the share of the State's total grants under this section that is based on local educational agencies with total populations of fewer than 20,000 persons. Such an alternative method of distributing grants under this section among a State's local educational agencies serving areas with total populations of fewer than 20,000 persons shall be based upon population data that the State educational agency determines best reflects the current distribution of children in poor families among the State's local educational agencies serving areas with total populations of fewer than 20,000 persons and meeting the eligibility criteria of paragraph (1)(A). If a local educational agency serving an area with total population of less than 20,000 persons is dissatisfied with the determination of its grant by the State educational agency, then such local educational agency may appeal this determination to the Secretary. The Secretary shall respond to this appeal within 45 days of receipt. The Secretary

shall consult with the Secretary of Commerce regarding whether available data on population for local educational agencies serving areas with total populations of fewer than 20,000 persons are sufficiently reliable to be used to determine final grants to such areas meeting the eligibility criteria of paragraph (1)(A).

(b) Reservation of funds

Of the total amount of funds available for this section and sections 6333 and 6335 of this title, an amount equal to the appropriation for fiscal year 1995 for section 1006 of this Act (as such section was in effect on the day preceding October 20, 1994) shall be available to carry out this section.

(c) Ratable reduction rule

If the sums available under subsection (b) of this section for any fiscal year for making payments under this section are not sufficient to pay in full the total amounts which all States are eligible to receive under subsection (a) of this section for such fiscal year, the maximum amounts which all States are eligible to receive under subsection (a) of this section for such fiscal year shall be ratably reduced. In the case that additional funds become available for making such payments for any fiscal year during which the preceding sentence is applicable, such reduced amounts shall be increased on the same basis as they were reduced.

(d) States receiving minimum grants

In States that receive the minimum grant under subsection (a)(1)(B) of this section, the State educational agency shall allocate such funds among the local educational agencies in each State either—

- (1) in accordance with paragraphs (2) and (4) of subsection (a) of this section; or
- (2) based on their respective concentrations and numbers of children counted under section 6333(c) of this title, except that only those local educational agencies with concentrations or numbers of children counted under section 6333(c) of this title that exceed the statewide average percentage of such children or the statewide average number of such children shall receive any funds on the basis of this paragraph.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6332, 6333, 6335, 6336, 6337 of this title.

§ 6335. Targeted grants to local educational agencies

(a) Eligibility of local educational agencies

A local educational agency in a State is eligible to receive a targeted grant under this section for any fiscal year if the number of children in the local educational agency counted under subsection¹ 6333(c) of this title, before application of the weighting factor described in subsection (c) of this section, is at least 10, and if the number of children counted for grants under section 6333 of this title is at least 5 percent of the total population aged 5 to 17 years, inclusive, in the local educational agency. Funds made available as a result of applying this subsection shall be reallocated by the State educational agency to other eligible local educational agencies in the State in proportion to the distribution of other funds under this section.

(b) Grants for local educational agencies, the District of Columbia, and Puerto Rico

(1) In general

The amount of the grant that a local educational agency in a State or that the District of Columbia is eligible to receive under this section for any fiscal year shall be the product of—

- (A) the weighted child count determined under subsection (c) of this section; and
- (B) the amount in the second sentence of subparagraph 6333(a)(1)(A)² of this title.

(2) Puerto Rico

For each fiscal year, the amount of the grant for which the Commonwealth of Puerto Rico is eligible under this section shall be equal to the number of children counted under subsection (c) of this section for Puerto Rico, multiplied by the amount determined in subparagraph¹ 6333(a)(3) of this title.

(c) Weighted child count

(1) Fiscal years 1966 to 1998

(A) In general

The weighted child count used to determine a county's allocation under this section is the larger of the two amounts determined under clause (i) or (ii), as follows:

(i) By percentage of children

This amount is determined by adding—

- (I) the number of children determined under section 6333(c) of this title for that county constituting up to 12.20 percent, inclusive, of the county's total population aged 5 to 17, inclusive, multiplied by 1.0;
- (II) the number of such children constituting more than 12.20 percent, but not more than 17.70 percent, of such population, multiplied by 1.75;
- (III) the number of such children constituting more than 17.70 percent, but not more than 22.80 percent, of such population, multiplied by 2.5;

¹ So in original. Probably should be “section”.

² So in original. Probably should be “section 6333(a)(1)”.

(IV) the number of such children constituting more than 22.80 percent, but not more than 29.70 percent, of such population, multiplied by 3.25; and

(V) the number of such children constituting more than 29.70 percent of such population, multiplied by 4.0.

(ii) By number of children

This amount is determined by adding—

(I) the number of children determined under section 6333(c) of this title constituting up to 1,917, inclusive, of the county's total population aged 5 to 17, inclusive, multiplied by 1.0;

(II) the number of such children between 1,918 and 5,938, inclusive, in such population, multiplied by 1.5;

(III) the number of such children between 5,939 and 20,199, inclusive, in such population, multiplied by 2.0;

(IV) the number of such children between 20,200 and 77,999, inclusive, in such population, multiplied by 2.5; and

(V) the number of such children in excess of 77,999 in such population, multiplied by 3.0.

(B) Puerto Rico

Notwithstanding subparagraph (A), the weighting factor for Puerto Rico under this paragraph shall not be greater than the total number of children counted under subsection³ 6333(c) of this title multiplied by 1.72.

(2) Fiscal years after 1999

(A) In general

For each fiscal year beginning with fiscal year 1999 for which the Secretary uses local educational agency data, the weighted child count used to determine a local educational agency's grant under this section is the larger of the two amounts determined under clauses (i) and (ii), as follows:

(i) By percentage of children

This amount is determined by adding—

(I) the number of children determined under section 6333(c) of this title for that local educational agency constituting up to 14.265 percent, inclusive, of the agency's total population aged 5 to 17, inclusive, multiplied by 1.0;

(II) the number of such children constituting more than 14.265 percent, but not more than 21.553 percent, of such population, multiplied by 1.75;

(III) the number of such children constituting more than 21.553 percent, but not more than 29.223 percent, of such population, multiplied by 2.5;

(IV) the number of such children constituting more than 29.223 percent, but not more than 36.538 percent, of such population, multiplied by 3.25; and

(V) the number of such children constituting more than 36.538 percent of such population, multiplied by 4.0.

(ii) By number of children

This amount is determined by adding—

(I) the number of children determined under section 6333(c) of this title constituting up to 575, inclusive, of the agency's total population aged 5 to 17, inclusive, multiplied by 1.0;

(II) the number of such children between 576 and 1,870, inclusive, in such population, multiplied by 1.5;

(III) the number of such children between 1,871 and 6,910, inclusive, in such population, multiplied by 2.0;

(IV) the number of such children between 6,911 and 42,000, inclusive, in such population, multiplied by 2.5; and

(V) the number of such children in excess of 42,000 in such population, multiplied by 3.0.

(B) Puerto Rico

Notwithstanding subparagraph (A), the weighting factor for Puerto Rico under this paragraph shall not be greater than the total number of children counted under section 6333(c) of this title multiplied by 1.72.

(d) Local educational agency allocations

For fiscal years 1995 through 1998, grants shall be calculated by the Secretary on the basis of the number of children counted under section 6333 of this title for counties, and State educational agencies shall suballocate county amounts to local educational agencies, in accordance with regulations published by the Secretary. In any State in which a large number of local educational agencies overlap county boundaries, the State educational agency may apply to the Secretary for authority during any particular fiscal year to make the allocations under this part (other than section 6334 of this title) directly to local educational agencies without regard to the counties. If the Secretary approves an application of a State educational agency for a particular year under this subparagraph, the State educational agency shall provide assurances that—

(1) such allocations will be made using precisely the same factors for determining a grant as are used under this part;

(2) such allocations will be made using alternative data approved by the Secretary that the State determines best reflects the distribution of children in poor families and is adjusted to be equivalent in proportion to the number of children determined in accordance with section 6333(c) of this title; or

(3) such allocations will be made using data that the State educational agency submits to the Secretary for approval that more accurately target poverty.

In addition, the State educational agency shall provide assurances that a procedure will be established through which local educational agencies dissatisfied with the determinations made by the State educational agency may appeal directly to the Secretary for a final determination. For fiscal years beginning in 1999, for each local educational agency serving an area with a total population of at least 20,000 persons, the grant under this section shall be the amount determined by the Secretary. For local educational agencies serving areas with total popu-

lations of fewer than 20,000 persons, the State educational agency may either (1) distribute to such local educational agencies grants under this section equal to the amounts determined by the Secretary; or (2) use an alternative method, approved by the Secretary, to distribute the share of the State's total grants under this section that is based on local educational agencies with total populations of fewer than 20,000 persons. Such an alternative method of distributing grants under this section among a State's local educational agencies serving areas with total populations of fewer than 20,000 persons shall be based upon population data that the State educational agency determines best reflects the current distribution of children in poor families among the State's local educational agencies serving areas with total populations of fewer than 20,000 persons. If a local educational agency serving an area with total populations of less than 20,000 persons is dissatisfied with the determination of its grant by the State educational agency, then the local educational agency may appeal this determination to the Secretary. The Secretary shall respond to this appeal within 45 days of receipt.

(e) State minimum

Notwithstanding any other provision of this section or subsection (b)(1) or (d) of section 6332 of this title, from the total amount available for any fiscal year to carry out this section, each State shall be allotted at least the lesser of—

- (1) 0.25 percent of total appropriations; or
- (2) the average of—

(A) one-quarter of 1 percent of the total amount available to carry out this section; and

(B) 150 percent of the national average grant under this section per child described in section 6333(c) of this title, without application of a weighting factor, multiplied by the State's total number of children described in section 6333(c) of this title, without application of a weighting factor.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 6332, 6334, 6336, 6337 of this title.

§ 6336. Education finance incentive program

(a) Grants

The Secretary is authorized to make grants to States from the sums appropriated pursuant to subsection (e) of this section to carry out the purposes of this part.

(b) Distribution based upon fiscal effort and equity

(1) In general

Funds appropriated pursuant to subsection (e) of this section shall be allotted to each State based upon the number of children aged 5 to 17, inclusive, of such State multiplied by the product of—

(A) such State's effort factor described in paragraph (2); multiplied by

(B) 1.30 minus such State's equity factor described in paragraph (3),

except that for each fiscal year no State shall receive less than one-quarter of 1 percent of the total amount appropriated pursuant to subsection (e) of this section for such fiscal year.

(2) Effort factor

(A) Except as provided in subparagraph (B), the effort factor for a State shall be determined in accordance with the succeeding sentence, except that such factor shall not be less than .95 nor greater than 1.05. The effort factor determined under this sentence shall be a fraction the numerator of which is the product of the three-year average per-pupil expenditure in the State multiplied by the three-year average per capita income in the United States and the denominator of which is the product of the three-year average per capita income in such State multiplied by the three-year average per-pupil expenditure in the United States.

(B) The effort factor for the Commonwealth of Puerto Rico shall be equal to the lowest effort factor calculated under subparagraph (A) for any State.

(3) Equity factor

(A)(i) Except as provided in subparagraph (B), the Secretary shall determine the equity factor under this section for each State in accordance with clause (ii).

(ii)(I) For each State, the Secretary shall compute a weighted coefficient of variation for the per-pupil expenditures of local educational agencies in accordance with subclauses (II), (III), (IV), and (V).

(II) In computing coefficients of variation, the Secretary shall weigh the variation between per-pupil expenditures in each local educational agency and the average per-pupil expenditures in the State according to the number of pupils in the local educational agency.

(III) In determining the number of pupils under this paragraph in each local educational agency and each State, the Secretary shall multiply the number of children from low-income families by 1.4 under this paragraph.

(IV) In computing coefficients of variation, the Secretary shall include only those local educational agencies with an enrollment of more than 200 students.

(V) The Secretary shall compute separate coefficients of variation for elementary, secondary, and unified local educational agencies and shall combine such coefficients into a single weighted average coefficient for the State by multiplying each coefficient by the total enrollments of the local educational agencies in each group, adding such products, and dividing such sum by the total enrollments of the local educational agencies in the State.

(B) The equity factor for a State that meets the disparity standard described in section 222.63 of title 34, Code of Federal Regulations (as such section was in effect on the day preceding October 20, 1994) or a State with only one local educational agency shall be not greater than .10.

(C) The Secretary may revise each State's equity factor as necessary based on the advice

of independent education finance scholars to reflect other need-based costs of local educational agencies in addition to low-income student enrollment, such as differing geographic costs, costs associated with students with disabilities, children with limited-English proficiency or other meaningful educational needs, which deserve additional support. In addition and also with the advice of independent education finance scholars, the Secretary may revise each State's equity factor to incorporate other valid and accepted methods to achieve adequacy of educational opportunity that may not be reflected in a coefficient of variation method.

(c) Use of funds

All funds awarded to each State under this section shall be allocated to local educational agencies and schools on a basis consistent with the distribution of other funds to such agencies and schools under sections 6333, 6334, and 6335 of this title to carry out activities under this part.

(d) Maintenance of effort

(1) In general

Except as provided in paragraph (2), a State is entitled to receive its full allotment of funds under this part for any fiscal year if the Secretary finds that either the combined fiscal effort per student or the aggregate expenditures within the State with respect to the provision of free public education for the fiscal year preceding the fiscal year for which the determination is made was not less than 90 percent of such combined fiscal effort or aggregate expenditures for the second fiscal year preceding the fiscal year for which the determination is made.

(2) Reduction of funds

The Secretary shall reduce the amount of the of¹ funds awarded to any State under this section in any fiscal year in the exact proportion to which the State fails to meet the requirements of paragraph (1) by falling below 90 percent of both the fiscal effort per student and aggregate expenditures (using the measure most favorable to the State), and no such lesser amount shall be used for computing the effort required under paragraph (1) for subsequent years.

(3) Waivers

The Secretary may waive, for one fiscal year only, the requirements of this subsection if the Secretary determines that such a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State.

(e) Authorization of appropriations

For the purpose of making grants under this section, there are authorized to be appropriated \$200,000,000 for fiscal year 1996 and such sums as may be necessary for each of the three succeeding fiscal years.

(Pub. L. 89-10, title I, §1125A, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3575.)

¹ So in original. The word "of" probably should not appear.

CODIFICATION

October 20, 1994, referred to in subsec. (b)(3)(B), was in the original "the date of enactment of this Act", which was translated as meaning the date of enactment of Pub. L. 103-382, which enacted this section, to reflect the probable intent of Congress.

§ 6337. Special allocation procedures

(2) Special rule

If the State educational agency does not assume such responsibility, any other State or local public agency that does assume such responsibility shall receive that portion of the local educational agency's allocation.

(b) Allocations among local educational agencies

The State educational agency may allocate the amounts of grants under sections 6333, 6334, and 6335 of this title among the affected local educational agencies—

(1) if two or more local educational agencies serve, in whole or in part, the same geographical area;

(2) if a local educational agency provides free public education for children who reside in the school district of another local educational agency; or

(3) to reflect the merger, creation, or change of boundaries of one or more local educational agencies.

(c) Reallocation

If a State educational agency determines that the amount of a grant a local educational agency would receive under sections 6333, 6334, and 6335 of this title is more than such local agency will use, the State educational agency shall make the excess amount available to other local educational agencies in the State that need additional funds in accordance with criteria established by the State educational agency.

(Pub. L. 89-10, title I, §1126, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3577.)

§ 6338. Carryover and waiver

(a) Limitation on carryover

Notwithstanding section 1225 of this title or any other provision of law, not more than 15 percent of the funds allocated to a local educational agency for any fiscal year under this subpart (but not including funds received

through any reallocation under this subpart) may remain available for obligation by such agency for one additional fiscal year.

(b) Waiver

A State educational agency may, once every three years, waive the percentage limitation in subsection (a) of this section if—

- (1) the agency determines that the request of a local educational agency is reasonable and necessary; or
- (2) supplemental appropriations for this subpart become available.

(c) Exclusion

The percentage limitation under subsection (a) of this section shall not apply to any local educational agency that receives less than \$50,000 under this subpart for any fiscal year.

(Pub. L. 89-10, title I, §1127, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3577.)

(a) State allocations

Each State (other than the Commonwealth of Puerto Rico) is entitled to receive under this part, for each fiscal year, an amount equal to—

(B) 32 percent of the average per-pupil expenditure in the United States.

(c) Ratable reductions; reallocations

(1) In general

(A) If, after the Secretary reserves funds under section 6398(c) of this title, the amount appropriated to carry out this part for any fiscal year is insufficient to pay in full the amounts for which all States are eligible, the Secretary shall ratably reduce each such amount.

(2) Special rule

(A) The Secretary shall further reduce the amount of any grant to a State under this part for any fiscal year if the Secretary deter-

mines, based on available information on the numbers and needs of migratory children in the State and the program proposed by the State to address such needs, that such amount exceeds the amount required under section 6394 of this title.

(B) The Secretary shall reallocate such excess funds to other States whose grants under this part would otherwise be insufficient to provide an appropriate level of services to migratory children, in such amounts as the Secretary determines are appropriate.

(d) Consortium arrangements

(1) In general

In the case of a State that receives a grant of \$1,000,000 or less under this section, the Secretary shall consult with the State educational agency to determine whether consortium arrangements with another State or other appropriate entity would result in delivery of services in a more effective and efficient manner.

(2) Proposals

Any State, regardless of the amount of such State's allocation, may submit a consortium arrangement to the Secretary for approval.

(3) Approval

The Secretary shall approve a consortium arrangement under paragraph (1) or (2) if the proposal demonstrates that the arrangement will—

(A) reduce administrative costs or program function costs for State programs; and

(B) make more funds available for direct services to add substantially to the welfare or educational attainment of children to be served under this part.

(e) Determining numbers of eligible children

In order to determine the estimated number of migratory children residing in each State for purposes of this section, the Secretary shall—

(1) use such information as the Secretary finds most accurately reflects the actual number of migratory children;

(2) develop and implement a procedure for more accurately reflecting cost factors for different types of summer and intersession program designs;

PART D—PREVENTION AND INTERVENTION PROGRAMS FOR CHILDREN AND YOUTH WHO ARE NEGLECTED, DELINQUENT, OR AT RISK OF DROPPING OUT

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in sections 6302, 6312, 6315, 6512, 8852, 8857 of this title.

§ 6421. Findings; purpose; program authorized

(a) Findings

Congress finds the following:

(1) A large percentage of youth in the juvenile justice system have poor academic achievement, are a year or more behind grade level, and have dropped out of school.

(2) There is a strong correlation between academic failure and involvement in delinquent activities.

(3) Preventing students from dropping out of local schools and addressing the educational needs of delinquent youth can help reduce the dropout rate and involvement in delinquent activities at the same time.

(4) Many schools and correctional facilities fail to communicate regarding a youth's academic needs and students often return to their home school ill-prepared to meet current curriculum requirements.

(5) Schools are often reluctant to deal with youth returning from facilities and receive no funds to deal with the unique educational and other needs of such youth.

(6) A continuing need exists for activities and programs to reduce the incidence of youth dropping out of school.

(7) Federal dropout prevention programs have demonstrated effectiveness in keeping children and youth in school.

(8) Pregnant and parenting teens are a high at-risk group for dropping out of school and should be targeted by dropout prevention programs.

(2) to provide such children and youth the services needed to make a successful transition from institutionalization to further schooling or employment; and

(3) to prevent at-risk youth from dropping out of school and to provide dropouts and youth returning from institutions with a support system to ensure their continued education.

(c) Program authorized

In order to carry out the purpose of this part the Secretary shall make grants to State edu-

SUBCHAPTER II—DWIGHT D. EISENHOWER
PROFESSIONAL DEVELOPMENT PROGRAM

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 6320, 7472, 8332, 8801, 8857, 8893 of this title.

§ 6601. Findings

The Congress finds as follows:

(1) Reaching the National Education Goals, particularly the third, fourth, and fifth National Education Goals, requires a comprehensive educational reform strategy that involves parents, schools, government, communities, and other public and private organizations at all levels.

(2) A crucial component of the strategy for achieving such goals is ensuring, through sustained and intensive high-quality professional development, that all teachers will provide challenging learning experiences in the core academic subjects for their students.

(3) Decisionmaking as to what activities a State or local educational agency should undertake to improve teaching and learning are best made by individuals in the schools closest to the classroom and most knowledgeable about the needs of schools and students.

(4) The potential positive impact of high-quality professional development is underscored by recent research findings that—

(A) professional development must be focused on teaching and learning in order to improve the opportunities of all students to achieve higher standards;

(B) effective professional development focuses on discipline-based knowledge and effective subject-specific pedagogical skills, involves teams of teachers, and, where appropriate, administrators and pupil services personnel, in a school and, through professional networks of teachers, and, where appropriate, teacher educators, administrators, pupil services personnel, and parents, is interactive and collaborative, motivates by its intrinsic content and relationship to practice, builds on experience and learning-by-doing, and becomes incorporated into the everyday life of the school;

(C) professional development can dramatically improve classroom instruction and learning when teachers, and, where appropriate, administrators, pupil services personnel, and parents, are partners in the development and implementation of such professional development; and

(D) new and innovative strategies for teaching to high standards will require time for teachers, outside of the time spent teaching, for instruction, practice, and collegial collaboration.

(5) Special attention must be given in professional development activities to ensure that education professionals are knowledgeable of, and make use of, strategies for serving populations that historically have lacked access to equal opportunities for advanced learning and career advancement.

(6) Professional development is often a victim of budget reductions in fiscally difficult times.

(7) The Federal Government has a vital role in helping States and local educational agencies to make sustained and intensive high-quality professional development in the core academic subjects become an integral part of the elementary and secondary education system.

(8) Professional development activities must prepare teachers, pupil services personnel, paraprofessionals and other staff in the collaborative skills needed to appropriately teach children with disabilities, in the core academic subjects.

(9) Parental involvement is an important aspect of school reform and improvement. There is a need for special attention to ensure the effective involvement of parents in the education of their children. Professional development should include methods and strategies to better prepare teachers and, where appropriate, administrators, to enable parents to participate fully and effectively in their children's education.

§ 6602. Purposes

The purposes of this subchapter are to provide assistance to State and local educational agencies and to institutions of higher education with

teacher education programs so that such agencies and institutions can determine how best to improve the teaching and learning of all students by—

(1) helping to ensure that teachers, and, where appropriate, other staff and administrators, have access to sustained and intensive high-quality professional development that is aligned to challenging State content standards and challenging State student performance standards, and to support the development and implementation of sustained and intensive high-quality professional development activities in the core academic subjects; and

(E) is of sufficient intensity and duration to have a positive and lasting impact on the teacher's performance in the classroom; and

(F) is part of the everyday life of the school and creates an orientation toward continuous improvement throughout the school.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 8672 of this title.

§ 6623. National Teacher Training Project

(a) Short title; findings; definitions

(1) Short title

This section may be cited as the “National Teacher Training Project Act of 1994”.

(2) Findings

The Congress finds that—

(A) teachers must be major players in educational reform in the United States;

(B) teachers are isolated from their peers and have virtually no time during the school day to consult with other teachers;

(C) there is a shortage of sustained, year-round professional development programs for teachers;

(D) successful teaching methods are not adequately shared among teachers;

(E) teachers are the best teachers of other teachers because practicing classroom teachers have experience that no outside consultant can match;

(F) it is important for universities and schools to collaborate on teacher development programs if teaching and learning are to be improved;

(G) pertinent research is not shared among teachers in a professional setting;

(H) exemplary teachers should be recognized for their abilities and contributions and encouraged to refine their teaching methods;

(I) each State should support a nationally based teacher training program, that is modeled after the National Writing Project, for teachers of early childhood education, and for teachers of core academic subjects including teachers of mathematics, science, English, civics and government, foreign languages, and arts;

(J) the National Writing Project is a nationally recognized and honored nonprofit organization that recognizes there are teachers in every region of the United States who have developed successful methods for teaching writing and that such teachers can be trained and encouraged to train other teachers;

(K) the National Writing Project is a collaborative university-school program which offers summer and school year inservice teacher training programs and a dissemination network to inform and teach teachers regarding developments in the field of writing;

(L) each year, over 125,000 teachers voluntarily seek training in National Writing Project intensive summer institutes and workshops and school year inservice programs through one of the 155 sites located within the United States, and in 18 sites located outside of the United States;

(M) in the 20 years of its existence, over 1,100,000 teachers, administrators, and parents have participated in National Writing Project programs;

(N) less than \$16 per teacher was the average cost in Federal dollars for all teacher training at writing projects in academic year 1991-1992;

(O) for every dollar in Federal support, the National Writing Project provides over \$5 in matching funds from States, local universities and schools, and the private sector;

(P) private foundation resources, although generous in the past concerning National Writing Project programs, are inadequate to fund all of the National Teacher Training Project sites needed, and the future of the program is in jeopardy without secure financial support;

(Q) the National Writing Project has become a model for programs in other fields, such as science, mathematics, history, literature, foreign languages, and the performing arts, and the development of programs in other fields should continue with the support of Federal funds; and

(R) each of the 50 States should participate in the National Teacher Training Project by establishing regional teacher training sites in early childhood development, mathematics, science, English, civics and government, foreign languages, and arts to serve all teachers within the State.

This part is referred to in sections 6603, 6621, 6622, 8801, 8893 of this title.

§ 6671. Findings and purpose

(a) Findings

The Congress finds that—

(1) underlying the standards-driven framework of the Goals 2000: Educate America Act [20 U.S.C. 5801 et seq.] and the high academic standards for eligible students under subchapter I of this chapter is a widespread need to prepare teachers to teach to higher standards;

(2) prospective and current teachers need knowledge and skills beyond what such teachers currently possess;

(3) while both the Goals 2000: Educate America Act [20 U.S.C. 5801 et seq.] and subchapters I and II of this chapter have extensive references to professional development of teachers, there are no provisions to incorporate “on-the-ground” planning and implementation to serve as models for local educational agencies across the Nation; and

(4) better prepared teachers can lead to improved student achievement, especially for students who are furthest from reaching high standards.

(b) Purpose

It is the purpose of this part—

(1) to address the need for professional development with a primary focus on teachers;

(2) to provide both prospective teachers and current teachers opportunities to learn both the content and the pedagogy needed to teach to high standards; and

¹ So in original. Probably should be “paragraph (1)”.

(3) to build models, in a few cities and States, that demonstrate new organizational arrangements and deep investments in teachers necessary to better prepare teachers for new standards and assessments.

SUBCHAPTER III—TECHNOLOGY FOR EDUCATION

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in section 8893 of this title.

§ 6801. Short title

This subchapter may be cited as the “Technology for Education Act of 1994”.

(Pub. L. 89-10, title III, §3101, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3636.)

PART A—TECHNOLOGY FOR EDUCATION OF ALL STUDENTS

§ 6811. Findings

The Congress finds that—

(1) technology can produce far greater opportunities for all students to learn to high standards, promote efficiency and effectiveness in education, and help propel our Nation’s school systems into very immediate and dramatic reform, without which our Nation will not meet the National Education Goals by the target year 2000;

(2) the use of technology as a tool in the teaching and learning process is essential to the development and maintenance of a technologically literate citizenry and an internationally competitive workforce;

(3) the acquisition and use of technology in education throughout the United States has been inhibited by—

(A) the absence of Federal leadership;

(B) the inability of many State and local educational agencies to invest in and support needed technologies;

(C) the limited exposure of students and teachers to the power of technology as a cost-effective tool to improve student learning and achievement;

(D) the lack of appropriate electrical and telephone connections in the classroom; and

(E) the limited availability of appropriate technology-enhanced curriculum, instruction, professional development, and administrative support resources and services in the educational marketplace;

(4) policies at the Federal, State, and local levels concerning technology in education must address disparities in the availability of technology to different groups of students,

give priority to serving students in greatest need, and recognize that educational telecommunications and technology can address educational equalization concerns and school restructuring needs by providing universal access to high-quality teaching and programs, particularly in urban and rural areas;

(5) the increasing use of new technologies and telecommunications systems in business has increased the gap between schooling and work force preparation, and underscores the need for technology policies at the Federal, State, tribal, and local levels that address preparation for school-to-work transitions;

(6) technology can enhance the ongoing professional development of teachers and administrators by providing constant access to updated research in teaching and learning by means of telecommunications, and, through exposure to technology advancements, keep teachers and administrators excited and knowledgeable about unfolding opportunities for the classroom;

(7) planned and creative uses of technology, combined with teachers adequately trained in the use of technology, can reshape our Nation’s traditional method of providing education and empower teachers to create an environment in which students are challenged through rigorous, rich classroom instruction provided at a pace suited to each student’s learning style, and in which students have increased opportunities to develop higher order thinking and technical skills;

(8) schools need new ways of financing the acquisition and maintenance of educational technology;

(9) the needs for educational technology differ from State to State;

(10) technology can provide students, parents, teachers, other education professionals, communities, and industry with increased opportunities for partnerships and with increased access to information, instruction, and educational services in schools and other settings, including homes, libraries, preschool and child-care facilities, adult and family education programs, and postsecondary institutions;

(11) the Department, consistent with the overall national technology policy established by the President, must assume a vital leadership and coordinating role in developing the national vision and strategy to infuse advanced technology throughout all educational programs;

(12) Federal support can ease the burden at the State and local levels by enabling the acquisition of advanced technology and initiating the development of teacher training and support as well as new educational products;

(13) leadership at the Federal level should consider guidelines to ensure that educational technology is accessible to all users with maximum interoperability nationwide;

(14) the rapidly changing nature of technology requires coordination and flexibility in Federal leadership; and

(15) technology has the potential to assist and support the improvement of teaching and learning in schools and other settings.

(Pub. L. 89-10, title III, §3111, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3637.)

§ 6812. Statement of purpose

The purpose of this part is to support a comprehensive system for the acquisition and use by elementary and secondary schools in the United States of technology and technology-enhanced curricula, instruction, and administrative support resources and services to improve the delivery of educational services. Such system shall include—

(1) national leadership with respect to the need for, and the provision of, appropriate technology-enhanced curriculum, instruction, and administrative programs to improve learning in the United States, and to promote equal access for all students to educational opportunities in order to achieve the National Education Goals by the year 2000;

(2) funding mechanisms which will support the development, interconnection, implementation, improvement, and maintenance of an effective educational technology infrastructure, including activities undertaken by State and local educational agencies to promote and provide equipment, training for teachers and school library and media personnel, and technical support;

(3) support for technical assistance, professional development, information and resource dissemination, in order to help States, local educational agencies, teachers, school library and media personnel, and administrators successfully integrate technology into kindergarten through 12th grade classrooms and library media centers;

(4) support for the development of educational and instructional programming in core subject areas, which shall address the National Education Goals;

(5) strengthening and building upon, but not duplicating, existing telecommunications infrastructures dedicated to educational purposes;

(6) development and evaluation of new and emerging educational technologies, telecommunications networks, and state-of-the-art educational technology products that promote the use of advanced technologies in the classroom and school library media center;

(7) assessment data regarding state-of-the-art uses of technologies in United States education upon which commercial and non-commercial telecommunications entities, and governments can rely for decisionmaking about the need for, and provision of, appropriate technologies for education in the United States;

(8) ensuring that uses of educational technology are consistent with the overall national technology policy established by the President, and ensuring that Federal technology-related policies and programs will facilitate the use of technology in education;

(9) ensuring that activities supported under this part will form the basis for sound State and local decisions about investing in, sustaining, and expanding uses of technology in education;

(10) establishing working guidelines to ensure maximum interoperability nationwide

and ease of access for the emerging technologies so that no school system will be excluded from the technological revolution;

(11) ensuring that, as technological advances are made, the educational uses of these advances are considered and their applications are developed; and

(12) encouragement of collaborative relationships among the State agency for higher education, the State library administrative agency, the State telecommunications agency, and the State educational agency, in the area of technology support to strengthen the system of education.

Ex. Ord. No. 12821, Nov. 16, 1992, 57 F.R. 54285, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the provisions of the Stevenson-Wydler Technology Innovation Act of 1980, as amended (15 U.S.C. 3701, *et seq.*), and the Federal Property and Administrative Services Act of 1949, ch. 288, 63 Stat. 377 (codified as amended in scattered sections of the United States Code) [see Short Title note set out under section 471 of Title 40, Public Buildings, Property, and Works], and in order to ensure that Federal departments, agencies, and laboratories assist in mathematics and science education to meet the National Education Goals, it is hereby ordered as follows:

SECTION 1. *Assistance in Mathematics and Science Education.* (a) Each executive department and agency (hereinafter referred to as “agency”) that: (i) has a scientific mission; (ii) employs significant numbers of scientists, mathematicians, and engineers; or (iii) has a Federal laboratory; as determined by the Committee established by section 2(d) of this order, shall, to the maximum extent permitted by law:

(1) Assist in the mathematics and science education of our Nation’s students, teachers, parents, and the public by establishing programs at their agency to provide for training elementary and secondary school teachers to improve their knowledge of mathematics and science. Such programs, to the maximum extent possible, shall involve partnerships with universities, State and local elementary and secondary school authorities, corporations, and community based organizations. These activities shall be coordinated with other relevant Federal teacher training programs (e.g., those administered by the National Science Foundation, the Department of Education, and the Department of Energy). Because of its extensive experience in teacher training programs at its Federal laboratories, the Department of Energy, when requested by other agencies, shall assist in the development of these activities.

(2) Provide brief periods of excused absence for Federal employees to assist in the conduct of mathematics and science education programs, in accordance with guidelines of the Office of Personnel Management.

(b) Develop, within 6 months of the issuance of this order, an implementation plan to fulfill the requirements of this section. The plan shall be consistent with approved agency budget totals. The plan shall be coordinated through the Committee on Education and Human Resources of the Federal Coordinating Council for Science, Engineering, and Technology.

SEC. 2. *Transfer of Education-Related Federal Equipment to Elementary and Secondary Schools.* (a) To the maximum extent permitted by law, all agencies shall give highest preference to elementary and secondary schools in the transfer or donation of education-related Federal equipment. All such transfers to the schools shall be made at the lowest cost permitted by law.

(b) Each agency, to the maximum extent permitted by law, shall:

(1) Identify and transfer excess education-related Federal equipment at that agency that can be transferred to elementary and secondary schools by:

(A) Direct transfer of excess Federal research equipment in accordance with the provisions of subsection 3710(i) [section 11(i)] of the Stevenson-Wydler Technology Innovation Act of 1980, as amended (15 U.S.C. 3710(i)). The transfer of such excess equipment shall be reported to the General Services Administration (GSA); or

(B) Reporting such excess equipment to the GSA for donation when declared surplus in accordance with the provisions of section 203(j) of the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 484(j));

(2) Allow the elementary and secondary schools sufficient time to select available education-related Federal equipment before it is disposed of elsewhere;

(3) Provide training and technical assistance, where possible, to recipients of education-related Federal equipment to ensure that the equipment will be utilized to its full capability; and

(4) Attempt to provide education-related Federal equipment to those elementary and secondary schools with the greatest need or to the recipients of federally funded mathematics and science projects where the equipment would further enhance the progress of the project.

(c) The GSA shall:

(1) To the maximum extent permitted by law, ensure that elementary and secondary schools are notified of the opportunity to obtain education-related Federal equipment, and, where practical, provide to elementary and secondary schools a current listing of education-related Federal equipment that is available for transfer, and, when requested, provide a current listing of this available equipment to agencies; and

(2) Maintain a record of the education-related Federal equipment provided to elementary and secondary schools pursuant to this order.

(d) There is hereby established a Coordinating Committee on Education-Related Federal Equipment (Committee). The Committee membership shall include, but not be limited to, representatives of the Departments of Defense, Education, Energy, and Health and Human Services, the National Science Foundation, the General Services Administration, and the National Aeronautics and Space Administration.

(1) The Co-chairs of the Committee shall be the Administrator of General Services and the Secretary of Education, or their designees.

(2) The Committee shall assess the availability of appropriate education-related Federal equipment and mechanisms for expeditious notification and transfer of the equipment to elementary and secondary schools and shall resolve issues that may arise in implementing this order.

(3) The Committee shall inform, as necessary, non-Federal groups (e.g., National Governors Association, State Agencies for Surplus Property, etc.) of issues concerning the transfer of education-related Federal equipment.

(4) The Committee may consult with the Committee on Education and Human Resources of the Federal Coordinating Council for Science, Engineering, and Technology concerning activities outlined in this order, particularly those activities listed in section 1 of this order.

SEC. 3. *Definitions.* For the purposes of this order:

(a) “Education-related Federal equipment” means excess or surplus personal computers and related peripheral equipment, research equipment, and education-related equipment that is appropriate for use in mathematics and science curricula in elementary and secondary school education.

§ 6972. Statement of purpose

It is the purpose of this part to raise the quality of instruction in mathematics and science in the Nation's elementary schools by providing equipment and materials necessary for hands-on instruction through assistance to State and local educational agencies.

(Pub. L. 89-10, title III, §3502, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3667.)

§ 6973. Program authorized

The Secretary is authorized to make allotments to State educational agencies under section 6974 of this title to enable such agencies to award grants to local educational agencies for the purpose of providing equipment and materials to elementary schools to improve mathematics and science education in such schools.

(Pub. L. 89-10, title III, §3503, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3667.)

§ 6974. Allotments of funds

(a) In general

From the amount appropriated under section 6979 of this title for any fiscal year, the Secretary shall reserve—

(1) not more than one-half of 1 percent for allotment among Guam, American Samoa, the Virgin Islands, and the Northern Mariana Islands according to their respective needs for assistance under this part; and

(2) one-half of 1 percent for programs for Indian students served by schools funded by the Secretary of the Interior which are consistent with the purposes of this part.

(b) Allotment

(1) In general

The remainder of the amount so appropriated (after meeting requirements in subsection (a) of this section) shall be allotted among State educational agencies so that—

(A) one-half of such remainder shall be distributed by allotting to each State educational agency an amount which bears the same ratio to such one-half of such remainder as the number of children aged 5 to 17, inclusive, in the State bears to the number of such children in all States; and

(B) one-half of such remainder shall be distributed according to each State's share of allocations under part A of subchapter I of this chapter.

(2) Minimum

Except as provided in paragraph (3), no State educational agency shall receive an allotment under this subsection for any fiscal year in an amount that is—

(A) less than one-half of 1 percent of the amount made available under this subsection for such fiscal year; or

(B) less than the amount allotted to such State for fiscal year 1988 under title II of the Education for Economic Security Act.

(3) Ratable reductions

(A) If the sums made available under this part for any fiscal year are insufficient to pay the full amounts that all State educational agencies are eligible to receive under paragraph (2)(B) for such year, the Secretary shall ratably reduce the allotment to such agencies for such year.

(B) If additional funds become available for making payments under paragraph (2)(B) for such fiscal year, allotments that were reduced under subparagraph (A) shall be increased on the same basis as such allotments were reduced.

(c) Reallotment of unused funds

The amount of any State educational agency's allotment under subsection (b) of this section for any fiscal year to carry out this part which the Secretary determines will not be required for that fiscal year to carry out this part shall be available for reallotment from time to time, on such dates during that year as the Secretary may determine, to other State educational agencies in proportion to the original allotments to those State educational agencies under subsection (b) of this section for that year but with such proportionate amount for any of those other State educational agencies being reduced to the extent it exceeds the sum the Secretary estimates that the State educational agency needs and will be able to use for that year, and the total of those reductions shall be similarly reallotted among the State educational agencies whose proportionate amounts were not so reduced. Any amounts reallotted to a State educational agency under this subsection during a year shall be deemed a part of the State educational agency's allotment under subsection (b) of this section for that year.

(d) “State” defined

For the purposes of this part the term “State” means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

(e) Data

The number of children aged 5 to 17, inclusive, in the State and in all States shall be determined by the Secretary on the basis of the most recent satisfactory data available to the Secretary.

SUBCHAPTER IV—SAFE AND DRUG-FREE SCHOOLS AND COMMUNITIES

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 6649, 8857 of this title; title 42 section 11841.

§ 7101. Short title

This subchapter may be cited as the "Safe and Drug-Free Schools and Communities Act of 1994".

(Pub. L. 89-10, title IV, §4001, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3672.)

§ 7102. Findings

The Congress finds as follows:

(1) The seventh National Education Goal provides that by the year 2000, all schools in America will be free of drugs and violence and the unauthorized presence of firearms and alcohol, and offer a disciplined environment that is conducive to learning.

(2) The widespread illegal use of alcohol and other drugs among the Nation's secondary school students, and increasingly by students in elementary schools as well, constitutes a grave threat to such students' physical and mental well-being, and significantly impedes the learning process. For example, data show that students who drink tend to receive lower grades and are more likely to miss school because of illness than students who do not drink.

(3) Our Nation's schools and communities are increasingly plagued by violence and crime. Approximately 3,000,000 thefts and violent crimes occur in or near our Nation's schools every year, the equivalent of more than 16,000 incidents per school day.

(4) Violence that is linked to prejudice and intolerance victimizes entire communities leading to more violence and discrimination.

(5) The tragic consequences of violence and the illegal use of alcohol and drugs by students are felt not only by students and such

students' families, but by such students' communities and the Nation, which can ill afford to lose such students' skills, talents, and vitality.

(6) While use of illegal drugs is a serious problem among a minority of teenagers, alcohol use is far more widespread. The proportion of high school students using alcohol, though lower than a decade ago, remains unacceptably high. By the 8th grade, 70 percent of youth report having tried alcohol and by the 12th grade, about 88 percent have used alcohol. Alcohol use by young people can and does have adverse consequences for users, their families, communities, schools, and colleges.

(7) Alcohol and tobacco are widely used by young people. Such use can, and does, have adverse consequences for young people, their families, communities, schools, and colleges. Drug prevention programs for youth that address only controlled drugs send an erroneous message that alcohol and tobacco do not present significant problems, or that society is willing to overlook their use. To be credible, messages opposing illegal drug use by youth should address alcohol and tobacco as well.

(8) Every day approximately 3,000 children start smoking. Thirty percent of all secondary school seniors are smokers. Half of all new smokers begin smoking before the age of 14, 90 percent of such smokers begin before the age of 21, and the average age of the first use of smokeless tobacco is under the age of 10. Use of tobacco products has been linked to serious health problems. Drug education and prevention programs that include tobacco have been effective in reducing teenage use of tobacco.

(9) Drug and violence prevention programs are essential components of a comprehensive strategy to promote school safety and to reduce the demand for and use of drugs throughout the Nation. Schools and local organizations in communities throughout the Nation have a special responsibility to work together to combat the growing epidemic of violence and illegal drug use and should measure the success of their programs against clearly defined goals and objectives.

(10) Students must take greater responsibility for their own well-being, health, and safety if schools and communities are to achieve the goals of providing a safe, disciplined, and drug-free learning environment.

(Pub. L. 89-10, title IV, §4002, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3672.)

§ 7103. Purpose

The purpose of this subchapter is to support programs to meet the seventh National Education Goal by preventing violence in and around schools and by strengthening programs that prevent the illegal use of alcohol, tobacco, and drugs, involve parents, and are coordinated with related Federal, State, and community efforts and resources, through the provision of Federal assistance to—

(1) States for grants to local educational agencies and educational service agencies and consortia of such agencies to establish, operate, and improve local programs of school drug

and violence prevention, early intervention, rehabilitation referral, and education in elementary and secondary schools (including intermediate and junior high schools);

(2) States for grants to, and contracts with, community-based organizations and other public and private nonprofit agencies and organizations for programs of drug and violence prevention, early intervention, rehabilitation referral, and education;

(3) States for development, training, technical assistance, and coordination activities;

(4) public and private nonprofit organizations to conduct training, demonstrations, and evaluation, and to provide supplementary services for the prevention of drug use and violence among students and youth; and

(5) institutions of higher education to establish, operate, expand, and improve programs of school drug and violence prevention, education, and rehabilitation referral for students enrolled in colleges and universities.

(Pub. L. 89-10, title IV, §4003, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3673.)

§ 7104. Funding

There are authorized to be appropriated—

(1) \$630,000,000 for fiscal year 1995, and such sums as may be necessary for each of the four succeeding fiscal years, for State grants under subpart 1 of part A of this subchapter; and

(2) \$25,000,000 for fiscal year 1995, and such sums as may be necessary for each of the four succeeding fiscal years, for national programs under subpart 2 of part A of this subchapter.

(Pub. L. 89-10, title IV, §4004, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3674.)

SUBCHAPTER V—PROMOTING EQUITY

PART A—MAGNET SCHOOLS ASSISTANCE

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in sections 5891, 6212 of this title.

§ 7201. Findings

The Congress finds that—

(1) magnet schools are a significant part of our Nation’s effort to achieve voluntary desegregation in our Nation’s schools;

(2) the use of magnet schools has increased dramatically since the date of enactment of the Magnet Schools Assistance program, with approximately 1,400,000 students nationwide now attending such schools, of which more than 60 percent of the students are nonwhite;

(3) magnet schools offer a wide range of distinctive programs that have served as models for school improvement efforts;

(4) in administering the Magnet Schools Assistance program, the Federal Government has learned that—

(A) where magnet programs are implemented for only a portion of a school's student body, special efforts must be made to discourage the isolation of—

(i) magnet school students from other students in the school; and

(ii) students by racial characteristics;

(B) local educational agencies can maximize their effectiveness in achieving the purposes of the Magnet Schools Assistance program if such agencies have more flexibility in the administration of such program in order to serve students attending a school who are not enrolled in the magnet school program;

(C) local educational agencies must be creative in designing magnet schools for students at all academic levels, so that school districts do not skim off only the highest achieving students to attend the magnet schools;

(D) consistent with desegregation guidelines, local educational agencies must seek to enable participation in magnet school programs by students who reside in the neighborhoods where the programs operate; and

(E) in order to ensure that magnet schools are sustained after Federal funding ends, the Federal Government must assist school districts to improve their capacity to continue to operate magnet schools at a high level of performance; and

(5) it is in the best interest of the Federal Government to—

(A) continue the Federal Government's support of school districts implementing court-ordered desegregation plans and school districts seeking to foster meaningful interaction among students of different racial and ethnic backgrounds, beginning at the earliest stage of such students' education;

(B) ensure that all students have equitable access to quality education that will prepare such students to function well in a culturally diverse, technologically oriented, and highly competitive, global community; and

(C) maximize the ability of local educational agencies to plan, develop, implement and continue effective and innovative magnet schools that contribute to State and local systemic reform.

(Pub. L. 89-10, title V, §5101, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3690.)

§ 7202. Statement of purpose

The purpose of this part is to assist in the desegregation of schools served by local educational agencies by providing financial assistance to eligible local educational agencies for—

(1) the elimination, reduction, or prevention of minority group isolation in elementary and secondary schools with substantial proportions of minority students;

(2) the development and implementation of magnet school projects that will assist local educational agencies in achieving systemic reforms and providing all students the opportunity to meet challenging State content standards and challenging State student performance standards;

(3) the development and design of innovative educational methods and practices; and

(4) courses of instruction within magnet schools that will substantially strengthen the knowledge of academic subjects and the grasp of tangible and marketable vocational skills of students attending such schools.

(Pub. L. 89-10, title V, §5102, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3691.)

PART B—WOMEN'S EDUCATIONAL EQUITY

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in section 6649 of this title.

§ 7231. Short title; findings

(a) Short title

This part may be cited as the “Women’s Educational Equity Act of 1994”.

(b) Findings

The Congress finds that—

(1) since the enactment of title IX of the Education Amendments of 1972 [20 U.S.C. 1681 et seq.], women and girls have made strides in educational achievement and in their ability to avail themselves of educational opportunities;

(2) because of funding provided under the Women’s Educational Equity Act, more curricula, training, and other educational materials concerning educational equity for women and girls are available for national dissemination;

(3) teaching and learning practices in the United States are frequently inequitable as

such practices relate to women and girls, for example—

(A) sexual harassment, particularly that experienced by girls, undermines the ability of schools to provide a safe and equitable learning or workplace environment;

(B) classroom textbooks and other educational materials do not sufficiently reflect the experiences, achievements, or concerns of women and, in most cases, are not written by women or persons of color;

(C) girls do not take as many mathematics and science courses as boys, girls lose confidence in their mathematics and science ability as girls move through adolescence, and there are few women role models in the sciences; and

(D) pregnant and parenting teenagers are at high risk for dropping out of school and existing dropout prevention programs do not adequately address the needs of such teenagers;

(4) efforts to improve the quality of public education also must include efforts to ensure equal access to quality education programs for all women and girls;

(5) Federal support should address not only research and development of innovative model curricula and teaching and learning strategies to promote gender equity, but should also assist schools and local communities implement gender equitable practices;

(6) Federal assistance for gender equity must be tied to systemic reform, involve collaborative efforts to implement effective gender practices at the local level, and encourage parental participation; and

(7) excellence in education, high educational achievements and standards, and the full participation of women and girls in American society, cannot be achieved without educational equity for women and girls.

SUBCHAPTER VI—INNOVATIVE EDUCATION PROGRAM STRATEGIES

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 7713, 8801, 8857 of this title.

§ 7301. Findings and statement of purpose

(a) Findings

The Congress finds that chapter 2 of title I of this Act (as such chapter was in effect on the day preceding October 20, 1994) has been successful in achieving the goals of increasing local flexibility, reducing administrative burden, providing services for private school students, encouraging innovation, and contributing to the improvement of elementary and secondary educational programs.

(b) Statement of purpose

It is the purpose of programs under this subchapter—

- (1) to support local education reform efforts which are consistent with and support statewide reform efforts under Goals 2000: Educate America Act [20 U.S.C. 5801 et seq.];
- (2) to support State and local efforts to accomplish the National Education Goals;
- (3) to provide funding to enable State and local educational agencies to implement promising educational reform programs;
- (4) to provide a continuing source of innovation, and educational improvement, including support for library services and instructional and media materials; and
- (5) to meet the special educational needs of at risk and high cost students.

(c) State and local responsibility

The basic responsibility for the administration of funds made available under this subchapter is within the State educational agencies, but it is the intent of Congress that the responsibility be carried out with a minimum of paperwork and that the responsibility for the design and implementation of programs assisted under this subchapter will be mainly that of local educational agencies, school superintendents and principals, and classroom teachers and supporting personnel, because such agencies and individuals have the most direct contact with students and are most likely to be able to design programs to meet the educational needs of students in their own school districts.

(A) Strong and effective administrative and instructional leadership that creates consensus on instructional goals and organizational capacity for instructional problem solving.

(B) Emphasis on the acquisition of basic and higher order skills.

(C) A safe and orderly school environment that allows teachers and pupils to focus their energies on academic achievement.

(D) A climate of expectation that virtually all children can learn under appropriate conditions.

(E) Continuous assessment of students and programs to evaluate the effects of instruction.

(Pub. L. 89-10, title VI, §6003, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3707.)

PART A—STATE AND LOCAL PROGRAMS

§ 7311. Allotment to States**(a) Reservations**

From the sums appropriated to carry out this subchapter in any fiscal year, the Secretary shall reserve not to exceed one percent for payments to outlying areas to be allotted in accordance with their respective needs.

(b) Allotment

From the remainder of such sums, the Secretary shall allot to each State an amount which bears the same ratio to the amount of such remainder as the school-age population of the State bears to the school-age population of all States, except that no State shall receive less than an amount equal to one-half of one percent of such remainder.

(c) Definitions

For purposes of this part:

(1) The term “school-age population” means the population aged 5 through 17.

(2) The term “States” includes the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.

§ 7312. Allocation to local educational agencies**(a) Distribution rule**

From the sums made available each year to carry out this subchapter, the State educational

agency shall distribute not less than 85 percent to local educational agencies within such State according to the relative enrollments in public and private, nonprofit schools within the school districts of such agencies, adjusted, in accordance with criteria approved by the Secretary, to provide higher per pupil allocations to local educational agencies which have the greatest numbers or percentages of children whose education imposes a higher than average cost per child, such as—

- (1) children living in areas with high concentrations of low-income families;
- (2) children from low-income families; and
- (3) children living in sparsely populated areas.

(b) Calculation of enrollments

(1) In general

The calculation of relative enrollments under subsection (a) of this section shall be on the basis of the total of—

- (A) the number of children enrolled in public schools; and
- (B) the number of children enrolled in private nonprofit schools that desire that their children participate in programs or projects assisted under this subchapter, for the fiscal year preceding the fiscal year for which the determination is made.

(2) Construction

Nothing in this subsection shall diminish the responsibility of local educational agencies to contact, on an annual basis, appropriate officials from private nonprofit schools within the areas served by such agencies in order to determine whether such schools desire that their children participate in programs assisted under this part.

(3) Adjustments

(A) Relative enrollments under subsection (a) of this section shall be adjusted, in accordance with criteria approved by the Secretary under subparagraph (B), to provide higher per pupil allocations only to local educational agencies which serve the greatest numbers or percentages of—

- (i) children living in areas with high concentrations of low-income families;
- (ii) children from low-income families; or
- (iii) children living in sparsely populated areas.

(B) The Secretary shall review criteria submitted by a State educational agency for adjusting allocations under paragraph (1) and shall approve such criteria only if the Secretary determines that such criteria are reasonably calculated to produce an adjusted allocation that reflects the relative needs within the State's local educational agencies based on the factors set forth in subparagraph (A).

(c) Payment of allocations

(1) Distribution

From the funds paid to a State educational agency pursuant to section 7302 of this title for a fiscal year, a State educational agency shall distribute to each eligible local educational agency which has submitted an appli-

cation as required in section 7332 of this title the amount of such local educational agency allocation as determined under subsection (a) of this section.

(2) Additional funds

(A) Additional funds resulting from higher per pupil allocations provided to a local educational agency on the basis of adjusted enrollments of children described in subsection (a) of this section, may, at the discretion of the local educational agency, be allocated for expenditures to provide services for children enrolled in public and private nonprofit schools in direct proportion to the number of children described in subsection (a) of this section and enrolled in such schools within the local educational agency.

(B) In any fiscal year, any local educational agency that elects to allocate such additional funds in the manner described in subparagraph (A) shall allocate all additional funds to schools within the local educational agency in such manner.

(C) The provisions of subparagraphs (A) and (B) may not be construed to require any school to limit the use of such additional funds to the provision of services to specific students or categories of students.

(Pub. L. 89-10, title VI, §6102, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3708.)

PART D—GENERAL ADMINISTRATIVE PROVISIONS

§ 7371. Maintenance of effort; Federal funds supplementary

(a) Maintenance of effort

(1) In general

Except as provided in paragraph (2), a State is entitled to receive its full allocation of funds under this part for any fiscal year if the Secretary finds that either the combined fiscal effort per student or the aggregate expenditures within the State with respect to the provision of free public education for the fiscal

year preceding the fiscal year for which the determination is made was not less than 90 percent of such combined fiscal effort or aggregate expenditures for the second fiscal year preceding the fiscal year for which the determination is made.

(2) Reduction of funds

The Secretary shall reduce the amount of the allocation of funds under this part in any fiscal year in the exact proportion to which the State fails to meet the requirements of paragraph (1) by falling below 90 percent of both the fiscal effort per student and aggregate expenditures (using the measure most favorable to the State), and no such lesser amount shall be used for computing the effort required under paragraph (1) for subsequent years.

(3) Waivers

The Secretary may waive, for one fiscal year only, the requirements of this section if the Secretary determines that such a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State.

(b) Federal funds supplementary

A State or local educational agency may use and allocate funds received under this part only so as to supplement and, to the extent practical, increase the level of funds that would, in the absence of Federal funds made available under this part, be made available from non-Federal sources, and in no case may such funds be used so as to supplant funds from non-Federal sources.

(Pub. L. 89-10, title VI, §6401, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3712.)

§ 7372. Participation of children enrolled in private schools

(a) Participation on equitable basis

(1) In general

To the extent consistent with the number of children in the school district of a local educational agency which is eligible to receive funds under this subchapter or which serves the area in which a program or project assisted under this subchapter is located who are enrolled in private nonprofit elementary and secondary schools, or with respect to instructional or personnel training programs funded by the State educational agency from funds made available for State use, such agency, after consultation with appropriate private school officials, shall provide for the benefit of such children in such schools secular, neutral, and nonideological services, materials, and equipment, including the participation of the teachers of such children (and other educational personnel serving such children) in training programs, and the repair, minor remodeling, or construction of public facilities as may be necessary for their provision (consistent with subsection (c) of this section), or, if such services, materials, and equipment are not feasible or necessary in one or more such private schools as determined by the local

educational agency after consultation with the appropriate private school officials, shall provide such other arrangements as will assure equitable participation of such children in the purposes and benefits of this subchapter.

(2) Other provisions for services

If no program or project is carried out under paragraph (1) in the school district of a local educational agency, the State educational agency shall make arrangements, such as through contracts with nonprofit agencies or organizations, under which children in private schools in such district are provided with services and materials to the extent that would have occurred if the local educational agency had received funds under this subchapter.

(3) Application of requirements

The requirements of this section relating to the participation of children, teachers, and other personnel serving such children shall apply to programs and projects carried out under this subchapter by a State or local educational agency, whether directly or through grants to or contracts with other public or private agencies, institutions, or organizations.

(b) Equal expenditures

Expenditures for programs pursuant to subsection (a) of this section shall be equal (consistent with the number of children to be served) to expenditures for programs under this subchapter for children enrolled in the public schools of the local educational agency, taking into account the needs of the individual children and other factors which relate to such expenditures, and when funds available to a local educational agency under this subchapter are used to concentrate programs or projects on a particular group, attendance area, or grade or age level, children enrolled in private schools who are included within the group, attendance area, or grade or age level selected for such concentration shall, after consultation with the appropriate private school officials, be assured equitable participation in the purposes and benefits of such programs or projects.

(c) Funds

(1) Administration of funds and property

The control of funds provided under this subchapter, and title to materials, equipment, and property repaired, remodeled, or constructed with such funds, shall be in a public agency for the uses and purposes provided in this subchapter, and a public agency shall administer such funds and property.

(2) Provision of services

The provision of services pursuant to this subchapter shall be provided by employees of a public agency or through contract by such public agency with a person, an association, agency, or corporation who or which, in the provision of such services, is independent of such private school and of any religious organizations, and such employment or contract shall be under the control and supervision of such public agency, and the funds provided under this subchapter shall not be commingled with State or local funds.

(d) State prohibition waiver

If by reason of any provision of law a State or local educational agency is prohibited from providing for the participation in programs of children enrolled in private elementary and secondary schools, as required by this section, the Secretary shall waive such requirements and shall arrange for the provision of services to such children through arrangements which shall be subject to the requirements of this section.

(e) Waiver and provision of services

(1) Failure to comply

If the Secretary determines that a State or a local educational agency has substantially failed or is unwilling to provide for the participation on an equitable basis of children enrolled in private elementary and secondary schools as required by this section, the Secretary may waive such requirements and shall arrange for the provision of services to such children through arrangements which shall be subject to the requirements of this section.

(2) Withholding of allocation

Pending final resolution of any investigation or complaint that could result in a determination under this subsection or subsection (d) of this section, the Secretary may withhold from the allocation of the affected State or local educational agency the amount estimated by the Secretary to be necessary to pay the cost of those services.

(f) Determination

Any determination by the Secretary under this section shall continue in effect until the Secretary determines that there will no longer be any failure or inability on the part of the State or local educational agency to meet the requirements of subsections (a) and (b) of this section.

(g) Payment from State allotment

When the Secretary arranges for services pursuant to this section, the Secretary shall, after consultation with the appropriate public and private school officials, pay the cost of such services, including the administrative costs of arranging for those services, from the appropriate allotment of the State under this subchapter.

(h) Review

(1) Written objections

The Secretary shall not take any final action under this section until the State educational agency and the local educational agency affected by such action have had an opportunity, for not less than 45 days after receiving written notice thereof, to submit written objections and to appear before the Secretary or the Secretary's designee to show cause why that action should not be taken.

(2) Court action

If a State or local educational agency is dissatisfied with the Secretary's final action after a proceeding under paragraph (1), such agency may, not later than 60 days after notice of such action, file with the United States court of appeals for the circuit in which such

State is located a petition for review of that action. A copy of the petition shall be transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the record of the proceedings on which the Secretary based this action, as provided in section 2112 of title 28.

(3) Remand to Secretary

The findings of fact by the Secretary, if supported by substantial evidence, shall be conclusive; but the court, for good cause shown, may remand the case to the Secretary to take further evidence and the Secretary may make new or modified findings of fact and may modify the Secretary's previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

(4) Court review

Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Secretary or to set such action aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28.

SUBCHAPTER VII—BILINGUAL EDUCATION, LANGUAGE ENHANCEMENT, AND LANGUAGE ACQUISITION PROGRAMS

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 1401, 6493, 8893 of this title.

PART A—BILINGUAL EDUCATION

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in sections 1206a, 6396, 6649, 7545, 7571, 7572, 7573, 7575, 7602 of this title.

§ 7401. Short title

This part may be cited as the “Bilingual Education Act”.

(Pub. L. 89-10, title VII, § 7101, as added Pub. L. 103-382, title I, § 101, Oct. 20, 1994, 108 Stat. 3716.)

§ 7402. Findings, policy, and purpose

(a) Findings

The Congress finds that—

(1) language-minority Americans speak virtually all world languages plus many that are indigenous to the United States;

(2) there are large and growing numbers of children and youth of limited-English proficiency, many of whom have a cultural heritage that differs from that of their English-proficient peers;

(3) the presence of language-minority Americans is related in part to Federal immigration policies;

(4) many language-minority Americans are limited in their English proficiency, and many have limited education and income;

(5) limited English proficient children and youth face a number of challenges in receiving an education that will enable such children and youth to participate fully in American society, including—

(A) segregated education programs;

(B) disproportionate and improper placement in special education and other special programs due to the use of inappropriate evaluation procedures;

(C) the limited-English proficiency of their own parents, which hinders the parents' ability to fully participate in the education of their children; and

(D) a shortage of teachers and other staff who are professionally trained and qualified to serve such children and youth;

(6) Native Americans and Native American languages (as such terms are defined in section 2902 of title 25), including native residents of the outlying areas, have a unique status under Federal law that requires special policies within the broad purposes of this chapter to serve the education needs of language minority students in the United States;

(7) institutions of higher education can assist in preparing teachers, administrators and

other school personnel to understand and build upon the educational strengths and needs of language-minority and culturally diverse student enrollments;

(8) it is the purpose of this subchapter to help ensure that limited English proficient students master English and develop high levels of academic attainment in content areas;

(9) quality bilingual education programs enable children and youth to learn English and meet high academic standards including proficiency in more than one language;

(10) as the world becomes increasingly interdependent and as international communication becomes a daily occurrence in government, business, commerce, and family life, multilingual skills constitute an important national resource which deserves protection and development;

(11) educational technology has the potential for improving the education of language-minority and limited English proficient students and their families, and the Federal Government should foster this development;

(12) parent and community participation in bilingual education programs contributes to program effectiveness;

(13) research, evaluation, and data-collection capabilities in the field of bilingual education need to be strengthened so that educators and other staff can better identify and promote those programs, program implementation strategies, and instructional practices that result in effective education of limited English proficient children;

(14) the use of a child or youth's native language and culture in classroom instruction can—

(A) promote self-esteem and contribute to academic achievement and learning English by limited English proficient children and youth;

(B) benefit English-proficient children and youth who also participate in such programs; and

(C) develop our Nation's national language resources, thus promoting our Nation's competitiveness in the global economy;

(15) the Federal Government, as exemplified by title VI of the Civil Rights Act of 1964 [42 U.S.C. 2000d et seq.] and section 1703(f) of this title, has a special and continuing obligation to ensure that States and local school districts take appropriate action to provide equal educational opportunities to children and youth of limited English proficiency; and

(16) the Federal Government also, as exemplified by the Federal Government's efforts under this subchapter, has a special and continuing obligation to assist States and local school districts in developing the capacity to provide programs of instruction that offer limited English proficient children and youth an equal educational opportunity.

(b) Policy

The Congress declares it to be the policy of the United States, in order to ensure equal educational opportunity for all children and youth and to promote educational excellence, to assist State and local educational agencies, institu-

tions of higher education and community-based organizations to build their capacity to establish, implement, and sustain programs of instruction for children and youth of limited English proficiency.

(c) Purpose

The purpose of this part is to educate limited English proficient children and youth to meet the same rigorous standards for academic performance expected of all children and youth, including meeting challenging State content standards and challenging State student performance standards in academic areas by—

(1) developing systemic improvement and reform of educational programs serving limited English proficient students through the development and implementation of exemplary bilingual education programs and special alternative instruction programs;

(2) developing bilingual skills and multicultural understanding;

(3) developing the English of such children and youth and, to the extent possible, the native language skills of such children and youth;

(4) providing similar assistance to Native Americans with certain modifications relative to the unique status of Native American languages under Federal law;

(5) developing data collection and dissemination, research, materials development, and technical assistance which is focused on school improvement for limited English proficient students; and

(6) developing programs which strengthen and improve the professional training of educational personnel who work with limited English proficient students.

Notwithstanding paragraph (2), the Secretary may award grants under this subpart for special alternative instructional programs if an applicant has demonstrated that the applicant cannot develop and implement a bilingual education program for the following reasons:

(A) Where the diversity of the limited English proficient students' native languages and the small number of students speaking each respective language makes bilingual education impractical.

(B) Where, despite documented efforts, the applicant has not been able to hire qualified instructional personnel who are able to communicate in the students' native language.

(4) Consideration

In approving applications under this subpart, the Secretary shall give consideration to the degree to which the program for which assistance is sought involves the collaborative efforts of institutions of higher education, community-based organizations, the appropriate local and State educational agency, or businesses.

PART B—FOREIGN LANGUAGE ASSISTANCE PROGRAM

PRIOR PROVISIONS

Provisions similar to those in this part were contained in part B (§3001 et seq.) of subchapter II of chapter 47 of this title prior to the general amendment of Pub. L. 89–10 by Pub. L. 103–382, §101, and in subpart 1 (§5011 et seq.) of part A of subchapter I of chapter 62 of this title prior to repeal by Pub. L. 103–382, §391(i).

§ 7511. Short title

This part may be cited as the “Foreign Language Assistance Act of 1994”.

(Pub. L. 89–10, title VII, §7201, as added Pub. L. 103–382, title I, §101, Oct. 20, 1994, 108 Stat. 3737.)

§ 7512. Findings

The Congress finds as follows:

(1) Foreign language proficiency is crucial to our Nation's economic competitiveness and national security. Significant improvement in the quantity and quality of foreign language instruction offered in our Nation's elementary and secondary schools is necessary.

(2) All Americans need a global perspective. To understand the world around us, we must acquaint ourselves with the languages, cultures, and history of other nations.

(3) Proficiency in two or more languages should be promoted for all American students. Multilingualism enhances cognitive and social growth, competitiveness in the global marketplace, national security, and understanding of diverse people and cultures.

(4) The United States lags behind other developed countries in offering foreign language study to elementary and secondary school students.

(5) Four out of five new jobs in the United States are created from foreign trade.

(6) The optimum time to begin learning a second language is in elementary school, when children have the ability to learn and excel in several foreign language acquisition skills, including pronunciation, and when children are most open to appreciating and valuing a culture other than their own.

(7) Foreign language study can increase children's capacity for critical and creative thinking skills and children who study a second language show greater cognitive development in areas such as mental flexibility, creativity, tolerance, and higher order thinking skills.

(8) Children who have studied a foreign language in elementary school achieve expected gains and score higher on standardized tests of reading, language arts, and mathematics than children who have not studied a foreign language.

(Pub. L. 89–10, title VII, §7202, as added Pub. L. 103–382, title I, §101, Oct. 20, 1994, 108 Stat. 3737.)

(b) Purpose

The purpose of this part is to assist eligible local educational agencies that experience unexpectedly large increases in their student population due to immigration to—

- (1) provide high-quality instruction to immigrant children and youth; and
- (2) help such children and youth—

Until the Secretary is so satisfied, no further payments shall be made to the State educational agency under this part, or payments

by the State educational agency under this part shall be limited to local educational agencies whose actions did not cause or were not involved in the failure, as the case may be.

(2) Eligible local educational agencies

The local educational agencies referred to in paragraph (1) are those local educational agencies in which the sum of the number of immigrant children and youth who are enrolled in public elementary or secondary schools under the jurisdiction of such agencies, and in nonpublic elementary or secondary schools within the districts served by such agencies, during the fiscal year for which the payments are to be made under this part, is equal to—

Where the Secretary, after consultation with any local educational agency and with the appropriate State educational agency, determines for a fiscal year ending prior to October 1, 1999—

(A) has been acquired by the United States since 1938;

(B) was not acquired by exchange for other Federal property in the local educational agency which the United States owned before 1939; and

(C) had an assessed value (determined as of the time or times when so acquired) aggregating 10 percent or more of the assessed value of—

(i) all real property in the local educational agency (similarly determined as of the time or times when such Federal property was so acquired); or

(ii) all real property in the local educational agency as assessed in the first year preceding or succeeding acquisition, whichever is greater, only if—

(I) the assessment of all real property in the local educational agency is not made at the same time or times that such Federal property was so acquired and assessed; and

(II) State law requires an assessment be made of property so acquired; and

(2) that such agency is not being substantially compensated for the loss in revenue resulting from such ownership by increases in revenue accruing to the agency from the conduct of Federal activities with respect to such Federal property.

then such agency shall be eligible to receive the amount described in subsection (b) of this section.

(b) Amount

(1) In general

(A)(i) The amount that a local educational agency shall be paid under subsection (a) of this section for a fiscal year shall be calculated in accordance with paragraph (2), except that such amount shall be reduced by the Secretary by an amount equal to the amount of revenue, if any, that such agency received during the previous fiscal year from activities conducted on such Federal property.

(ii) For purposes of clause (i), the amount of revenue that a local educational agency receives during the previous fiscal year from activities conducted on Federal property shall not include payments received by the agency from the Secretary of Defense to support—

(I) the operation of a domestic dependent elementary or secondary school; or

(II) the provision of a free public education to dependents of members of the Armed Forces residing on or near a military installation.

(B) If funds appropriated under section 7714(a) of this title are insufficient to pay the amount determined under subparagraph (A), the Secretary shall ratably reduce the payment to each eligible local educational agency.

(C) Notwithstanding any other provision of this subsection, a local educational agency may not be paid an amount under this section that, when added to the amount such agency receives under section 7703(b) of this title, exceeds the maximum amount that such agency is eligible to receive for such fiscal year under section 7703(b)(1)(C) of this title.

(2) Application of current levied real property tax rate

In calculating the amount that a local educational agency is eligible to receive for a fiscal year, the Secretary shall apply the current levied real property tax rate for current expenditures levied by fiscally independent local educational agencies, or imputed for fiscally dependent local educational agencies, to the current annually determined aggregate assessed value of such acquired Federal property.

(3) Determination of aggregate assessed value

Such aggregate assessed value of such acquired Federal property shall be determined on the basis of the highest and best use of property adjacent to such acquired Federal property as of the time such value is determined, and provided to the Secretary, by the

local official responsible for assessing the value of real property located in the jurisdiction of such local educational agency for the purpose of levying a property tax.

(c) Applicability to Tennessee Valley Authority Act

For the purpose of this section, any real property with respect to which payments are being made under section 13 of the Tennessee Valley Authority Act of 1933 [16 U.S.C. 831f] shall not be regarded as Federal property.

(d) Ownership by United States

The United States shall be deemed to own Federal property for the purposes of this chapter, where—

(1) prior to the transfer of Federal property, the United States owned Federal property meeting the requirements of subparagraphs (A), (B), and (C) of subsection (a)(1) of this section; and

(2) the United States transfers a portion of the property referred to in paragraph (1) to another nontaxable entity, and the United States—

(A) restricts some or any construction on such property;

(B) requires that the property be used in perpetuity for the public purposes for which the property was conveyed;

(C) requires the grantee of the property to report to the Federal Government (or its agent) regarding information on the use of the property;

(D) except with the approval of the Federal Government (or its agent), prohibits the sale, lease, assignment, or other disposal of the property unless such sale, lease, assignment, or other disposal is to another eligible government agency; and

(E) reserves to the Federal Government a right of reversion at any time the Federal Government (or its agent) deems it necessary for the national defense.

The local educational agency serves a school district that contains between 20,000 and 60,000 acres of land that has been acquired by the Forest Service of the Department of Agriculture between 1915 and 1990, as demonstrated by written evidence from the Forest Service satisfactory to the Secretary.

(2) County charter

The local educational agency serves a county chartered under State law in 1875 or 1890.

(f) Special rule

Beginning with fiscal year 1994, and notwithstanding any other provision of law limiting the period during which fiscal year 1994 funds may be obligated, the Secretary shall treat the local

educational agency serving the Wheatland R-II School District, Wheatland, Missouri, as meeting the eligibility requirements of section 2(a)(1)(C) of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such section was in effect on the day preceding October 20, 1994) (20 U.S.C. 237(a)(1)(C)) or subsection (a)(1)(C) of this section.

(g) Former districts

(1) In general

Where the school district of any local educational agency described in paragraph (2) is formed at any time after 1938 by the consolidation of two or more former school districts, such agency may elect (at any time such agency files an application under section 7705 of this title) for any fiscal year after fiscal year 1994 to have (A) the eligibility of such local educational agency, and (B) the amount which such agency shall be eligible to receive, determined under this section only with respect to such of the former school districts comprising such consolidated school districts as such agency shall designate in such election.

(2) Eligible local educational agencies

A local educational agency referred to in paragraph (1) is any local educational agency that, for fiscal year 1994 or any preceding fiscal year, applied for and was determined eligible under section 2(c) of the Act of September 30, 1950 (Public Law 874, 81st Congress) as such section was in effect for such fiscal year.

(h) Hold-harmless amounts

(1) In general

Except as provided in paragraph (2)(A), the total amount that the Secretary shall pay under subsection (b) of this section to a local educational agency that is otherwise eligible for a payment under this section—

(A) for fiscal year 1995 shall not be less than 85 percent of the amount such agency received for fiscal year 1994 under section 2 of the Act of September 30, 1950 (Public Law 874, 81st Congress) as such section was in effect on September 30, 1994; or

(B) for fiscal year 1996 shall not be less than 85 percent of the amount such agency received for fiscal year 1995 under subsection (b) of this section.

(2) Ratable reductions

(A)(i) If necessary in order to make payments to local educational agencies in accordance with paragraph (1) for any fiscal year, the Secretary first shall ratably reduce payments under subsection (b) of this section for such year to local educational agencies that do not receive a payment under this subsection for such year.

(ii) If additional funds become available for making payments under subsection (b) of this section for such year, then payments that were reduced under clause (i) shall be increased on the same basis as such payments were reduced.

(B)(i) If the sums made available under this subchapter for any fiscal year are insufficient to pay the full amounts that all local educational agencies in all States are eligible to

receive under paragraph (1) after the application of subparagraph (A) for such year, then the Secretary shall ratably reduce payments under paragraph (1) to all such agencies for such year.

(ii) If additional funds become available for making payments under paragraph (1) for such fiscal year, then payments that were reduced under clause (i) shall be increased on the same basis as such payments were reduced.

(i) Priority payments

Notwithstanding subsection (b)(1)(B) of this section, and for any fiscal year beginning with fiscal year 1997 for which the amount appropriated to carry out this section exceeds the amount so appropriated for fiscal year 1996, the Secretary shall first use such excess amount to increase the payment that would otherwise be made under this section to not more than 50 percent of the maximum amount determined under subsection (b) of this section for any local educational agency that—

(1) received a payment under this section for fiscal year 1996;

(2) serves a school district that contains all or a portion of a United States military academy;

(3) serves a school district in which the local tax assessor has certified that at least 60 percent of the real property is federally owned; and

(4) demonstrates to the satisfaction of the Secretary that such agency's per-pupil revenue derived from local sources for current expenditures is not less than that revenue for the preceding fiscal year.

§ 7703. Payments for eligible federally connected children

(a) Computation of payment

(1) In general

For the purpose of computing the amount that a local educational agency is eligible to receive under subsection (b), (d), or (f) of this section for any fiscal year, the Secretary shall determine the number of children who were in average daily attendance in the schools of such agency, and for whom such agency provided free public education, during the preceding school year and who, while in attendance at such schools—

(A)(i) resided on Federal property with a parent employed on Federal property situated in whole or in part within the boundaries of the school district of such agency; or

(ii) resided on Federal property with a parent who is an official of, and accredited by, a foreign government and is a foreign military officer;

(B) resided on Federal property and had a parent on active duty in the uniformed services (as defined in section 101 of title 37);

(C) resided on Indian lands;

(D)(i) had a parent on active duty in the uniformed services (as defined by section 101 of title 37) but did not reside on Federal property; or

(ii) had a parent who is an official of, and has been accredited by, a foreign government and is a foreign military officer but did not reside on Federal property;

(E) resided in low-rent housing;

(F) resided on Federal property and is not described in subparagraph (A) or (B); or

(G) resided with a parent employed on Federal property situated—

(i) in whole or in part in the county in which such agency is located, or in whole or in part in such agency if such agency is located in more than one county; or

(ii) if not in such county, in whole or in part in the same State as such agency.

(2) Determination of weighted student units

For the purpose of computing the basic support payment under subsection (b) of this section, the Secretary shall calculate the total number of weighted student units for a local educational agency by adding together the results obtained by the following computations:

(A) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of 1.0.

(B) Multiply the number of children described in paragraph (1)(C) by a factor of 1.25.

(C) Multiply the number of children described in subparagraphs (A) and (B) of paragraph (1) by a factor of .35 if the local educational agency has—

(i) a number of such children described in such subparagraphs which exceeds 6,500; and

(ii) an average daily attendance for all children which exceeds 100,000.

(D) Multiply the number of children described in subparagraphs (D) and (E) of paragraph (1) by a factor of .10.

(E) Multiply the number of children described in subparagraphs (F) and (G) of paragraph (1) by a factor of .05.

(3) Special rule

The Secretary shall only compute a payment for a local educational agency for children described in subparagraph (F) or (G) of paragraph (1) if the number of such children equals or exceeds 1,000 or such number equals or exceeds 10 percent of the total number of students in average daily attendance in the schools of such agency.

(4) Military installation housing undergoing renovation

For purposes of computing the amount of a payment for a local educational agency for children described in paragraph (1)(D)(i), the Secretary shall consider such children to be children described in paragraph (1)(B) if the Secretary determines, on the basis of a certification provided to the Secretary by a designated representative of the Secretary of Defense, that such children would have resided in housing on Federal property in accordance with paragraph (1)(B) except that such housing was undergoing renovation on the date for which the Secretary determines the number of children under paragraph (1).

(b) Basic support payments; insufficient appropriations; State with only one local educational agency

(1) Basic support payments

(A) In general

From the amount appropriated under section 7714(b) of this title for a fiscal year, the Secretary is authorized to make basic support payments to eligible local educational agencies with children described in subsection (a) of this section.

(B) Eligibility

A local educational agency is eligible to receive a basic support payment under subparagraph (A) for a fiscal year with respect to a number of children determined under subsection (a)(1) of this section only if the number of children so determined with respect to such agency amounts to the lesser of—

(i) at least 400 such children; or

(ii) a number of such children which equals at least 3 percent of the total number of children who were in average daily attendance, during such year, at the schools of such agency and for whom such agency provided free public education.

(C) Maximum amount

The maximum amount that a local educational agency is eligible to receive under this subsection for any fiscal year is the sum of the total weighted student units, as computed under subsection (a)(2) of this section, multiplied by the greater of—

(i) one-half of the average per-pupil expenditure of the State in which the local educational agency is located for the third fiscal year preceding the fiscal year for which the determination is made;

(ii) one-half of the average per-pupil expenditure of all of the States for the third fiscal year preceding the fiscal year for which the determination is made;

(iii) the comparable local contribution rate certified by the State, as determined under regulations prescribed to carry out the Act of September 30, 1950 (Public Law 874, 81st Congress), as such regulations were in effect on January 1, 1994; or

(iv) the average per-pupil expenditure of the State in which the local educational agency is located, multiplied by the local contribution percentage.

(2) Payments with respect to fiscal years in which insufficient funds are appropriated

(A) In general

For any fiscal year in which the sums appropriated under section 7714(b) of this title are insufficient to pay to each local educational agency the full amount computed under paragraph (1), the Secretary shall make payments in accordance with this paragraph.

(B) Learning opportunity threshold payments

(i) For fiscal years described in subparagraph (A), the Secretary shall compute a learning opportunity threshold payment (hereafter in this subchapter referred to as the “threshold payment”) by multiplying the amount obtained under paragraph (1)(C) by the total percentage obtained by adding—

(I) the percentage of federally connected children for each local educational agency determined by calculating the fraction, the numerator of which is the total number of children described under subsection (a)(1) of this section and the denominator of which is the total number of children in average daily attendance at the schools served by such agency; and

(II) the percentage that funds under paragraph (1)(C) represent of the total budget of the local educational agency, determined by calculating the fraction, the numerator of which is the total amount of funds calculated for each local educational agency under this paragraph (not including amounts received under subsection (f) of this section), and the denominator of which is the total current expenditures for such agency in the second preceding fiscal year for which the determination is made.

(ii) Such total percentage used to calculate threshold payments under paragraph (1) shall not exceed 100.

(iii) For the purpose of determining the percentages described in subclauses (I) and (II) of clause (i) that are applicable to the local educational agency providing free public education to students in grades 9 through 12 residing on Hanscom Air Force Base, Massachusetts, the Secretary shall consider only that portion of such agency’s total enrollment of students in grades 9 through 12 when calculating the percentage under such subclause (I) and only that portion of the total current expenditures attributed to the operation of grades 9 through 12 in such agency when calculating the percentage under subclause (II).

(C) Ratable distribution

For fiscal years described in subparagraph (A), the Secretary shall make payments as a ratable distribution based upon the computation made under subparagraph (B).

(3) States with only one local educational agency

(A) In general

In any of the 50 States of the United States in which there is only one local edu-

cational agency, the Secretary shall, for purposes of paragraphs (1)(B), (1)(C), and (2) of this subsection, and subsection (e) of this section, consider each administrative school district in the State to be a separate local educational agency.

(B) Computation of maximum amount of basic support payment and threshold payment

In computing the maximum payment amount under paragraph (1)(C) and the learning opportunity threshold payment under paragraph (2)(B) for an administrative school district described in subparagraph (A)—

(i) the Secretary shall first determine the maximum payment amount and the total current expenditures for the State as a whole; and

(ii) the Secretary shall then—

(I) proportionately allocate such maximum payment amount among the administrative school districts on the basis of the respective weighted student units of such districts; and

(II) proportionately allocate such total current expenditures among the administrative school districts on the basis of the respective number of students in average daily attendance at such districts.

(c) Prior year data

(1) In general

Except as provided in paragraph (2) and subsection (f) of this section, all calculations under this section shall be based on data for each local educational agency from not later than the fiscal year preceding the fiscal year for which the agency is making application for payment.

(2) Exception

Calculations for a local educational agency that is newly established by a State shall, for the first year of operation of such agency, be based on data from the fiscal year for which the agency is making application for payment.

(d) Children with disabilities

(1) In general

From the amount appropriated under section 7714(c) of this title for a fiscal year, the Secretary shall pay to each eligible local educational agency, on a pro rata basis, the amounts determined by—

(A) multiplying the number of children described in subparagraphs (A)(ii), (B) and (C) of subsection (a)(1) of this section who are eligible to receive services under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.) by a factor of 1.0; and

(B) multiplying the number of children described in subparagraph (D) of subsection (a)(1) of this section who are eligible to receive services under such Act by a factor of 0.5.

(2) Use of funds

A local educational agency that receives funds under paragraph (1) shall use such funds to provide a free appropriate public education

to children described in paragraph (1) in accordance with the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.).

(e) Hold-harmless amounts

(1) In general

(A) Except as provided in paragraph (4)(A), the total amount that the Secretary shall pay a local educational agency under subsection (b) of this section shall not be less than 85 percent of the amount such agency received for the preceding fiscal year—

(i) in the case of fiscal year 1995 only, under subsections (a) and (b) of section 3 of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such section was in effect on the day preceding October 20, 1994); or

(ii) in the case of fiscal years 1996, 1997, 1998, or 1999, under such subsection (b) of this section.

(B) For fiscal year 1995 only, the Secretary shall pay, to each local educational agency that is not eligible for a payment under subsection (b) of this section but that received a payment under section 3 of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such Act was in effect on the day preceding October 20, 1994) for fiscal year 1994, an amount which is not less than 85 percent of the payment such agency received under such section 3 for fiscal year 1994.

(2) Two-year applicability

Paragraph (1)(A) shall apply to any one local educational agency for a maximum of two consecutive fiscal years.

(3) Phase-out payment

A local educational agency which received a payment under section 3(e) of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such section was in effect on the day preceding October 20, 1994) for fiscal year 1994 is eligible to receive a payment, under subsection (b) of this section for fiscal year 1995, in an amount which is not less than 85 percent of the amount received by such agency in fiscal year 1994 under such section 3(e).

(4) Ratable reductions

(A)(i) If necessary in order to make payments to local educational agencies in accordance with paragraphs (1) and (2), the Secretary first shall ratably reduce payments under subsection (b) of this section to local educational agencies that do not receive a payment under this subsection.

(ii) If additional funds become available for making payments under subsection (b) of this section for such fiscal year, payments that were reduced under clause (i) shall be increased on the same basis as such payments were reduced.

(B)(i) If the sums made available under this subchapter for any fiscal year are insufficient to pay the full amounts that all local educational agencies in all States are eligible to receive under paragraphs (1) and (2) after the application of subparagraph (A) for such year, the Secretary shall ratably reduce payments to all such agencies for such year.

(ii) If additional funds become available for making payments under paragraphs (1) and (2) for such fiscal year, payments that were reduced under clause (i) shall be increased on the same basis as such payments were reduced.

(f) Additional assistance for heavily impacted local educational agencies

(1) Reservation

From amounts appropriated under section 7714(b) of this title for a fiscal year, the Secretary shall provide additional assistance to meet special circumstances relating to the provision of education in local educational agencies eligible to receive assistance under this section.

(2) Eligibility

(A) A local educational agency is eligible to receive additional assistance under this subsection if such agency is eligible for a supplementary payment in accordance with subparagraph (B) or such agency—

(i)(I) has an enrollment of federally connected children described in subsection (a)(1) of this section which constitutes a percentage of the total student enrollment of such agency which is not less than 50 percent if such agency receives a payment on behalf of children described in subparagraphs (F) and (G) of such subsection, or not less than 40 percent if such agency does not receive a payment on behalf of such children; and

(II) has a tax rate for general fund purposes which is at least 95 percent of the average tax rate for general fund purposes of comparable local educational agencies in the State;

(ii)(I) has an enrollment of federally connected children described in subsection (a)(1) of this section which constitutes at least 35 percent of the total student enrollment of such agency; and

(II) has a tax rate for general fund purposes which is at least 125 percent of the average tax rate for general fund purposes of comparable local educational agencies in the State; or

(iii) is a local educational agency whose boundaries are the same as a Federal military installation.

(B) If the current expenditures in those local educational agencies which the Secretary has determined to be generally comparable to the local educational agency for which a computation is made under subsection (b)(1)(C) of this section are not reasonably comparable because of unusual geographical factors which affect the current expenditures necessary to maintain, in such agency, a level of education equivalent to that maintained in such other agencies, then the Secretary shall increase the local contribution rate for such agency by such an amount which the Secretary determines will compensate such agency for the increase in current expenditures necessitated by such unusual geographical factors. The amount of any such supplementary payment may not exceed the per-pupil share (computed with regard to all children in average daily attendance), as determined by the Secretary, of

the increased current expenditures necessitated by such unusual geographic factors.

(C) Any local educational agency determined eligible under clause (iii) of subparagraph (A) shall be deemed to have met the tax effort requirements for eligibility under clause (i)(II) or (ii)(II) of such subparagraph.

(D) A local educational agency shall only be eligible to receive additional assistance under this subsection if the Secretary determines that—

(i) such agency is exercising due diligence in availing itself of State and other financial assistance; and

(ii) the eligibility of such agency under State law for State aid with respect to the free public education of children described in subsection (a)(1) of this section and the amount of such aid are determined on a basis no less favorable to such agency than the basis used in determining the eligibility of local educational agencies for State aid, and the amount of such aid, with respect to the free public education of other children in the State.

(3) Maximum payments

(A) In general

Subject to subparagraph (B), the Secretary shall determine the maximum amount that a local educational agency may receive under this subsection (other than any amount received under paragraph (2)(B)) in accordance with the following computations:

(i) The Secretary, in conjunction with the local educational agency, shall first determine each of the following:

(I) The average per-pupil expenditure of the State in which the local educational agency is located.

(II) The average per-pupil expenditure of generally comparable local educational agencies located in the State of the local educational agency, as defined in regulations issued by the Secretary.

(III) The average per-pupil expenditure of three generally comparable local educational agencies located in the State of the local educational agency, as defined in regulations issued by the Secretary.

The local educational agency shall select one of the amounts determined under subclause (I), (II), or (III) for purposes of the remaining computations under this subparagraph.

(ii) The Secretary shall next multiply the amount determined under clause (i) by the total number of students in average daily attendance at the schools of the local educational agency.

(iii) The Secretary shall next subtract from the amount determined under clause (ii) all funds available to the local educational agency for current expenditures, but, except as provided in subparagraph (C), shall not so subtract funds provided—

(I) under this chapter; or

(II) by any department or agency of the Federal Government (other than the Department) that are used for capital expenses.

(iv) If the tax rate used by the local educational agency is greater than 95 percent, but less than 100 percent, of the tax rate of comparable local educational agencies, the Secretary shall next multiply the amount determined under clause (iii) by the percentage that the tax rate of the local educational agency is of—

(I) the average tax rate of its generally comparable local educational agencies; or

(II) the average tax rate of all the local educational agencies in the State in which the local educational agency is located.

(v) The Secretary shall next subtract the total amount of payments received by a local educational agency under subsections (b) and (d) of this section for a fiscal year from the amount determined under clause (iii) or clause (iv), as the case may be.

(B) Special rule

With respect to payments under this subsection for a fiscal year for a local educational agency described in clause (ii) or (iii) of paragraph (2)(A), the maximum amount of payments under this subsection shall be equal to—

(i) the product of—

(I) the average per-pupil expenditure in all States multiplied by 0.7, except that such amount may not exceed 125 percent of the average per-pupil expenditure in all local educational agencies in the State; multiplied by

(II) the number of students described in subparagraph (A) or (B) of subsection (a)(1) of this section for such agency; minus

(ii) the amount of payments such agency receives under subsections (b) and (d) of this section for such year.

(C) Determination of available funds

When determining the amount of funds available to the local educational agency for current expenditures for purposes of subparagraph (A)(iii) for a fiscal year, the Secretary shall include, with respect to the local educational agency's opening cash balance for such fiscal year, the portion of such balance that is the greater of—

(i) the amount that exceeds the maximum amount of funds for current expenditures that the local educational agency was allowed by State law to carry over from the prior fiscal year, if State restrictions on such amounts were applied uniformly to all local educational agencies in the State; or

(ii) the amount that exceeds 30 percent of the local educational agency's operating costs for the prior fiscal year.

(4) Data

For purposes of providing assistance under this subsection the Secretary—

(A) shall use student, revenue, and tax data from the second fiscal year preceding

the fiscal year for which the local educational agency is applying for assistance under this subsection;¹

(B) shall derive the per pupil expenditure amount for the fiscal year for which the local educational agency is applying for assistance under this subsection for the local educational agency's comparable school districts by increasing or decreasing the per pupil expenditure data for the second fiscal year preceding the fiscal year for which the determination is made by the same percentage increase or decrease reflected between the per pupil expenditure data for the fourth fiscal year preceding the fiscal year for which the determination is made and the per pupil expenditure data for such second year.

(5) Reduction in payments

If funds appropriated to carry out this subsection are insufficient to pay in full the amounts determined under paragraph (3), the Secretary shall ratably reduce the payment to each eligible local educational agency.

(g) Additional payments for local educational agencies with high concentrations of children with severe disabilities

(1) In general

If any local educational agency receives Federal funds from sources other than this subchapter to carry out the purposes of this subchapter for any fiscal year due to the enrollment of children described under subsection (a) of this section, then the Secretary shall consider such funds as a payment to such agency under this subchapter² for such fiscal year.

(2) Special rule

Notwithstanding any other provision of law, if funds appropriated pursuant to section 7714(b) of this title for payments under subsection (b) of this section to such agency for a fiscal year which, when added to the funds described in paragraph (1) received by such agency for such fiscal year, exceed the maximum amount described under subsection (b)(1)(C) of this section, then the Secretary shall make available from the funds appropriated under section 7714(b) of this title for such fiscal year such excess amounts to any local educational agency serving two or more children described under subparagraph (B) or (D) of subsection (a)(1) of this section who have a severe disability and a parent serving in the uniformed services (as defined by section 101 of title 37) who is assigned to a particular permanent duty station for compassionate reasons (compassionate post assignment) for the total costs associated with such children who are provided an educational program provided outside the schools of such agency.

(3) Remaining funds

If funds remain after payments are made under paragraph (2) for any fiscal year, then such remaining funds shall be made available for expenditures under subsection (d) of this

section in such fiscal year on a pro rata basis consistent with the requirements of such subsection.

(4) Ratable reductions

If amounts available to carry out paragraph (2) for any fiscal year are insufficient to pay in full the total payment that all eligible local educational agencies are eligible to receive under such paragraph for such year, then the Secretary shall ratably reduce such payments to such agencies for such year.

(h) Other funds

Notwithstanding any other provision of law, a local educational agency receiving funds under this section may also receive funds under section 6 of the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such section was in effect on the day preceding October 20, 1994) or such section's successor authority.

(i) Maintenance of effort

A local educational agency may receive funds under subsection (b) of this section and section 7702 of this title for any fiscal year only if the State educational agency finds that either the combined fiscal effort per student or the aggregate expenditures of that agency and the State with respect to the provision of free public education by that agency for the preceding fiscal year was not less than 90 percent of such combined fiscal effort or aggregate expenditures for the second preceding fiscal year.

The Secretary shall—

(1) provide technical assistance to local educational agencies, parents, and Indian tribes to enable such agencies, parents, and tribes to carry out this section; and

(e) Complaints

(1) In general

(A) Any tribe, or its designee, which has students in attendance at a local educational agency may, in its discretion and without regard to the requirements of any other provision of law, file a written complaint with the Secretary regarding any action of a local educational agency taken pursuant to, or relevant to, the requirements of this section.

(B) Within ten working days from receipt of a complaint, the Secretary shall—

(i) designate a time and place for a hearing into the matters relating to the complaint at a location in close proximity to the local educational agency involved, or if the Secretary determines there is good cause, at some other location convenient to both the tribe, or its designee, and the local educational agency;

If the local educational agency rejects the determination of the Secretary and a tribe exercises the option under section 1101(d) of the Education Amendments of 1978, to have education services provided either directly by the Bureau of Indian Affairs or by contract with the Bureau of Indian Affairs, any Indian students affiliated with that tribe who wish to remain in attendance at the local educational agency against whom the complaint which led to the tribal action under such subsection (d) of this section was lodged may be counted with respect to that local educational agency for the purpose of receiving funds under section 7703 of this title. § 7709. State consideration of payments in providing State aid

(a) General prohibition

Except as provided in subsection (b) of this section, a State may not—

(1) consider payments under this subchapter or under the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such Act was in effect on the day preceding October 20, 1994) in determining for any fiscal year—

(A) the eligibility of a local educational agency for State aid for free public education; or

(B) the amount of such aid; or

(2) make such aid available to local educational agencies in a manner that results in less State aid to any local educational agency that is eligible for such payment than such agency would receive if such agency were not so eligible.

(b) State equalization plans

(1) In general

A State may reduce State aid to a local educational agency that receives a payment under section 7702 or 7703(b) of this title (except the amount calculated in excess of 1.0 under subparagraph (B) of section 7703(a)(2) of this title) or under the Act of September 30, 1950 (Public Law 874, 81st Congress) as such Act was in effect on the day preceding October 20, 1994 (other than an increase in payments described in paragraphs (2)(B), (2)(C), (2)(D), or (3)(B)(ii) of section 3(d) of such Act of September 30, 1950) for any fiscal year if the Secretary determines, and certifies under subsection (c)(3)(A) of this section, that such State has in effect a program of State aid that equalizes expenditures for free public education among local educational agencies in such State.

(2) Computation

(A) In general

For purposes of paragraph (1), a program of State aid equalizes expenditures among local educational agencies if, in the second fiscal year preceding the fiscal year for which the determination is made, the amount of per-pupil expenditures made by, or per-pupil rev-

venues available to, the local educational agency in the State with the highest such per-pupil expenditures or revenues did not exceed the amount of such per-pupil expenditures made by, or per-pupil revenues available to, the local educational agency in the State with the lowest such expenditures or revenues by more than 25 percent.

(B) Other factors

In making a determination under this subsection, the Secretary shall—

(i) disregard local educational agencies with per-pupil expenditures or revenues above the 95th percentile or below the 5th percentile of such expenditures or revenues in the State; and

(ii) take into account the extent to which a program of State aid reflects the additional cost of providing free public education in particular types of local educational agencies, such as those that are geographically isolated, or to particular types of students, such as children with disabilities.

(3) Exception

Notwithstanding paragraph (2), if the Secretary determines that the State has substantially revised its program of State aid, the Secretary may certify such program for any fiscal year only if—

(A) the Secretary determines, on the basis of projected data, that the State's program will meet the disparity standard described in paragraph (2) for the fiscal year for which the determination is made; and

(B) the State provides an assurance to the Secretary that, if final data do not demonstrate that the State's program met such standard for the fiscal year for which the determination is made, the State will pay to each affected local educational agency the amount by which the State reduced State aid to the local educational agency.

(c) Procedures for review of State equalization plans

(1) Written notice

(A) In general

Any State that wishes to consider payments described in subsection (b)(1) of this section in providing State aid to local educational agencies shall submit to the Secretary, not later than 120 days before the beginning of the State's fiscal year, a written notice of such State's intention to do so.

(B) Contents

Such notice shall be in the form and contain the information the Secretary requires, including evidence that the State has notified each local educational agency in the State of such State's intention to consider such payments in providing State aid.

(2) Opportunity to present views

Before making a determination under subsection (b) of this section, the Secretary shall afford the State, and local educational agencies in the State, an opportunity to present their views.

(3) Qualification procedures

If the Secretary determines that a program of State aid qualifies under subsection (b) of this section, the Secretary shall—

(A) certify the program and so notify the State; and

(B) afford an opportunity for a hearing, in accordance with section 7711(a) of this title, to any local educational agency adversely affected by such certification.

(4) Nonqualification procedures

If the Secretary determines that a program of State aid does not qualify under subsection (b) of this section, the Secretary shall—

(A) so notify the State; and

(B) afford an opportunity for a hearing, in accordance with section 7711(a) of this title, to the State, and to any local educational agency adversely affected by such determination.

(d) Treatment of State aid

(1) In general

If a State has in effect a program of State aid for free public education for any fiscal year, which is designed to equalize expenditures for free public education among the local educational agencies of that State, payments under this subchapter or under the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such Act was in effect on the day preceding October 20, 1994) for any fiscal year may be taken into consideration by such State in determining the relative—

(A) financial resources available to local educational agencies in that State; and

(B) financial need of such agencies for the provision of free public education for children served by such agency, except that a State may consider as local resources funds received under this subchapter or under the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such Act was in effect on the day preceding October 20, 1994) only in proportion to the share that local tax revenues covered under a State equalization program are of total local tax revenues.

(2) Prohibition

A State may not take into consideration payments under this subchapter or under the Act of September 30, 1950 (Public Law 874, 81st Congress) (as such Act was in effect on the day preceding October 20, 1994) before such State's program of State aid has been certified by the Secretary under subsection (c)(3) of this section.

(e) Remedies for State violations

(1) In general

The Secretary or any aggrieved local educational agency may, not earlier than 150 days after an adverse determination by the Secretary against a State for violation of subsections (a) or (d)(2) of this section or for failure to carry out an assurance under subsection (b)(3)(B) of this section, and if an administrative proceeding has not been concluded within such time, bring an action in a United States district court against such State for such violations or failure.

(2) Immunity

A State shall not be immune under the 11th amendment to the Constitution of the United States from an action described in paragraph (1).

(3) Relief

The court shall grant such relief as the court determines is appropriate.

SUBCHAPTER IX—INDIAN, NATIVE HAWAIIAN, AND ALASKA NATIVE EDUCATION

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

PART A—INDIAN EDUCATION

PRIOR PROVISIONS

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in sections 3423c, 8825 of this title.

§ 7801. Findings

The Congress finds that—

(1) the Federal Government has a special responsibility to ensure that educational programs for all American Indian and Alaska Native children and adults—

(A) are based on high-quality, internationally competitive content standards and student performance standards and build on Indian culture and the Indian community;

(B) assist local educational agencies, Indian tribes, and other entities and individuals in providing Indian students the opportunity to achieve such standards; and

(C) meet the special educational and culturally related academic needs of American Indian and Alaska Native students;

(2) since the date of enactment of the initial Indian Education Act in 1972, the level of involvement of Indian parents in the planning, development, and implementation of educational programs that affect such parents and their children has increased significantly, and schools should continue to foster such involvement;

(3) although the number of Indian teachers, administrators, and university professors has increased since 1972, teacher training programs are not recruiting, training, or retraining a sufficient number of Indian individuals as educators to meet the needs of a growing Indian student population in elementary, secondary, vocational, adult, and higher education;

(4) the dropout rate for Indian students is unacceptably high, for example, 9 percent of Indian students who were eighth graders in 1988 had already dropped out of school by 1990;

(5) during the period from 1980 to 1990, the percentage of Indian individuals living at or below the poverty level increased from 24 percent to 31 percent, and the readiness of Indian children to learn is hampered by the high incidence of poverty, unemployment, and health problems among Indian children and their families; and

(6) research related specifically to the education of Indian children and adults is very limited, and much of the research is of poor quality or is focused on limited local or regional issues.

(Pub. L. 89-10, title IX, §9101, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3773.)

§ 7901. Short title

This part may be cited as the “Native Hawaiian Education Act”.

(Pub. L. 89–10, title IX, §9201, as added Pub. L. 103–382, title I, §101, Oct. 20, 1994, 108 Stat. 3794.)

§ 7902. Findings

The Congress finds and declares as follows:

(1) Native Hawaiians are a distinct and unique indigenous people with a historical continuity to the original inhabitants of the Hawaiian archipelago, whose society was organized as a nation and internationally recognized as such by the United States, Britain, France, and Japan, as evidenced by treaties governing friendship, commerce, and navigation.

(2) At the time of the arrival of the first non-indigenous people in Hawai‘i in 1778, the Na-

tive Hawaiian people lived in a highly organized, self-sufficient subsistence social system based on a communal land tenure system with a sophisticated language, culture, and religion.

(3) A unified monarchial government of the Hawaiian Islands was established in 1810 under Kamehameha I, the first King of Hawai‘i.

(4) From 1826 until 1893, the United States recognized the sovereignty and independence of the Kingdom of Hawai‘i, which was established in 1810 under Kamehameha I, extended full and complete diplomatic recognition to the Kingdom of Hawai‘i, and entered into treaties and conventions with the Kingdom of Hawai‘i to govern friendship, commerce and navigation in 1826, 1842, 1849, 1875, and 1887.

(5) In 1893, the sovereign, independent, internationally recognized, and indigenous government of Hawai‘i, the Kingdom of Hawai‘i, was overthrown by a small group of non-Hawaiians, including United States citizens, who were assisted in their efforts by the United States Minister, a United States naval representative, and armed naval forces of the United States. Because of the participation of United States agents and citizens in the overthrow of the Kingdom of Hawai‘i, the Congress, on behalf of the people of the United States, apologized to Native Hawaiians for the overthrow and the deprivation of the rights of Native Hawaiians to self-determination through Public Law 103–150 (107 Stat. 1510).

(6) In 1898, the joint resolution entitled “A Joint Resolution to provide for annexing the Hawaiian Islands to the United States”, approved July 7, 1898 (30 Stat. 750), ceded absolute title of all lands held by the Republic of Hawai‘i, including the government and crown lands of the former Kingdom of Hawai‘i, to the United States, but mandated that revenue generated from these lands be used “solely for the benefit of the inhabitants of the Hawaiian Islands for educational and other public purposes”.

(7) By 1919, the Native Hawaiian population had declined from an estimated 1,000,000 in 1778 to an alarming 22,600, and in recognition of this severe decline, the Congress in 1921 enacted the Hawaiian Homes Commission Act, 1920, which designated approximately 200,000 acres of ceded public lands for homesteading by Native Hawaiians.

(8) Through the enactment of the Hawaiian Homes Commission Act, 1920, the Congress affirmed the special relationship between the United States and the Native Hawaiians, as expressed by then Secretary of the Interior Franklin K. Lane, who was quoted in the committee report for the Hawaiian Homes Commission Act, 1920, as saying: “One thing that impressed me . . . was the fact that the natives of the island who are our wards, I should say, and for whom in a sense we are trustees, are falling off rapidly in numbers and many of them are in poverty.”.

(9) In 1938, the United States Congress again acknowledged the unique status of the Hawaiian people by including in the Act of June 20, 1938 (52 Stat. 781 et seq.), a provision to lease lands within the National Parks extension to

Native Hawaiians and to permit fishing in the area “only by native Hawaiian residents of said area or of adjacent villages and by visitors under their guidance.”.

(10) Under the Act entitled “An Act to provide for the admission of the State of Hawai‘i into the Union” approved March 18, 1959 (73 Stat. 4), the United States transferred responsibility for the administration of the Hawaiian Home Lands to the State of Hawai‘i but reaffirmed the trust relationship which existed between the United States and the Hawaiian people by retaining the exclusive power to enforce the trust, including the power to approve land exchanges and legislative amendments affecting the rights of beneficiaries under such Act.

(11) In 1959, under the Act entitled “An Act to provide for the admission of the State of Hawai‘i into the Union”, approved March 18, 1959 (73 Stat. 4), the United States ceded to the State of Hawai‘i title to the public lands formerly held by the United States, but mandated that such lands be held by the State “in public trust” and reaffirmed the special relationship which existed between the United States and the Hawaiian people by retaining the legal responsibility to enforce the public trust responsibility of the State of Hawai‘i for the betterment of the conditions of Native Hawaiians, as defined in section 201(a) of the Hawaiian Homes Commission Act, 1920.

(12) The United States assumed special responsibilities for Native Hawaiian lands and resources at the time of the annexation of the Territory in 1898, upon adoption of the Hawaiian Homes Commission Act, 1920, and upon admission of the State of Hawai‘i into the Union in 1959, and has retained certain of those responsibilities.

(13) In recognition of the special relationship which exists between the United States and the Native Hawaiian people, the Congress has extended to Native Hawaiians the same rights and privileges accorded to American Indian, Alaska Native, Eskimo, and Aleut communities under the Native American Programs Act of 1974 [42 U.S.C. 2991 et seq.], the American Indian Religious Freedom Act [42 U.S.C. 1996], the National Museum of the American Indian Act [20 U.S.C. 80q et seq.], the Native American Graves Protection and Repatriation Act [25 U.S.C. 3001 et seq.], the National Historic Preservation Act [16 U.S.C. 470 et seq.], and the Native American Languages Act [25 U.S.C. 2901 et seq.].

(14) In recognition of the special relationship which exists between the United States and the Native Hawaiian people, the Congress has enacted numerous special provisions of law for the benefit of Native Hawaiians in the areas of health, education, labor, and housing.

(15) In 1981, the Senate instructed the Office of Education to submit to the Congress a comprehensive report on Native Hawaiian education. The report, entitled the “Native Hawaiian Educational Assessment Project”, was released in 1983 and documented that Native Hawaiians scored below parity with national norms on standardized achievement tests, were disproportionately represented in many

negative social and physical statistics, indicative of special educational needs, and had educational needs which were related to their unique cultural situation, such as different learning styles and low self-image.

(16) In recognition of the educational needs of Native Hawaiians, in 1988, the Congress enacted title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988 to authorize and develop supplemental educational programs to benefit Native Hawaiians.

(17) In 1993, the Kamehameha Schools Bishop Estate released a ten-year update of the Native Hawaiian Educational Assessment Project, which found that despite the successes of the programs established under title IV of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, many of the same educational needs still exist for Native Hawaiians. For example—

(A) educational risk factors continue to start even before birth for many Native Hawaiian children, including—

- (i) late or no prenatal care;
- (ii) half of Native Hawaiian women who give birth are unmarried; and
- (iii) high rates of births to teenage parents;

(B) Native Hawaiian students continue to begin their school experience lagging behind other students in terms of readiness factors such as vocabulary test scores;

(C) Native Hawaiian students continue to score below national norms on standardized education achievement tests at all grade levels;

(D) both public and private schools continue to show a pattern of lower percentages of Native Hawaiian students in the uppermost achievement levels and in gifted and talented programs;

(E) Native Hawaiian students continue to be overrepresented among students qualifying for special education programs provided to students with learning disabilities, mild mental retardation, emotional impairment, and other such disabilities;

(F) Native Hawaiians continue to be underrepresented in institutions of higher education and among adults who have completed four or more years of college;

(G) Native Hawaiians continue to be disproportionately represented in many negative social and physical statistics, indicative of special educational needs, for example—

- (i) Native Hawaiian students are more likely to be retained in grade level and to be excessively absent in secondary school;
- (ii) Native Hawaiian students are the highest users of drugs and alcohol in the State of Hawai‘i; and
- (iii) Native Hawaiian children continue to be disproportionately victimized by child abuse and neglect; and

(H) Native Hawaiians now comprise over 23 percent of the students served by the State of Hawai‘i Department of Education and

there are and will continue to be geographically rural, isolated areas with a high Native Hawaiian population density.

(18) The findings described in paragraphs (1) through (17) are contrary to the high rate of literacy and integration of traditional culture and Western education achieved by Native Hawaiians through a Hawaiian language-based public school system established in 1840 by Kamehameha III.

(19) After the overthrow of the Kingdom of Hawai'i in 1893, Hawaiian medium schools were banned. After annexation, throughout the territorial and statehood period, and until 1986, use of Hawaiian as a medium of education in public schools was declared unlawful, thereby causing incalculable harm to a culture that placed a very high value on the power of language, as exemplified in the traditional saying: "I ka 'ōlelo no ke ola; I ka 'ōlelo no ka make. In the language rests life; In the language rests death."

(20) Despite the consequences of over 100 years of nonindigenous influence, the Native Hawaiian people are determined to preserve, develop, and transmit to future generations their ancestral territory, and their cultural identity in accordance with their own spiritual and traditional beliefs, customs, practices, language, and social institutions.

(21) The State of Hawai'i, in the constitution and statutes of the State of Hawai'i—

(A) reaffirms and protects the unique right of the Native Hawaiian people to practice and perpetuate their culture and religious customs, beliefs, practices, and language; and

(B) recognizes the traditional language of the Native Hawaiian people as an official language of the State of Hawai'i, which may be used as the language of instruction for all subjects and grades in the public school system.

PART C—ALASKA NATIVE EDUCATION

§ 7931. Short title

This part may be cited as the “Alaska Native Educational Equity, Support and Assistance Act”.

(Pub. L. 89-10, title IX, §9301, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3805.)

§ 7932. Findings

The Congress finds and declares:

(1) The attainment of educational success is critical to the betterment of the conditions, long-term well-being and preservation of the culture of Alaska Natives.

(2) It is the policy of the Federal Government to encourage the maximum participation by Alaska Natives in the planning and the management of Alaska Native education programs.

(3) Alaska Native children enter and exit school with serious educational handicaps.

(4) The educational achievement of Alaska Native children is far below national norms. In addition to low Native performance on standardized tests, Native student dropout rates are high, and Natives are significantly underrepresented among holders of baccalaureate degrees in the State of Alaska. As a result, Native students are being denied their opportunity to become full participants in society by grade school and high school educations that are condemning an entire generation to an underclass status and a life of limited choices.

(5) The programs authorized herein, combined with expanded Head Start, infant learning and early childhood education programs, and parent education programs are essential if educational handicaps are to be overcome.

(6) The sheer magnitude of the geographic barriers to be overcome in delivering educational services in rural and village Alaska should be addressed through the development and implementation of innovative, model programs in a variety of areas.

(7) Congress finds that Native children should be afforded the opportunity to begin their formal education on a par with their non-Native peers. The Federal Government should lend support to efforts developed by and undertaken within the Alaska Native community to improve educational opportunity for all students.

(Pub. L. 89-10, title IX, §9302, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3805.)

(1) recognize the unique educational needs of Alaska Natives;

(2) authorize the development of supplemental educational programs to benefit Alaska Natives;

(3) supplement existing programs and authorities in the area of education to further the purposes of this part; and

(4) provide direction and guidance to appropriate Federal, State and local agencies to focus resources, including resources made available under this part, on meeting the educational needs of Alaska Natives.

§ 8032. Findings and purposes

(a) Findings

The Congress finds and declares that—

(1) all students can learn to high standards and must develop their talents and realize their potential if the United States is to prosper;

(2) gifted and talented students are a national resource vital to the future of the Nation and its security and well-being;

(3) too often schools fail to challenge students to do their best work, and students who are not challenged will not learn to challenging State content standards and challenging State student performance standards, fully develop their talents, and realize their potential;

(4) unless the special abilities of gifted and talented students are recognized and developed during such students' elementary and secondary school years, much of such students' special potential for contributing to the national interest is likely to be lost;

(5) gifted and talented students from economically disadvantaged families and areas, and students of limited-English proficiency are at greatest risk of being unrecognized and of not being provided adequate or appropriate educational services;

(6) State and local educational agencies and private nonprofit schools often lack the necessary specialized resources to plan and implement effective programs for the early identification of gifted and talented students and for the provision of educational services and programs appropriate to their special needs;

(7) the Federal Government can best carry out the limited but essential role of stimulating research and development and personnel training and providing a national focal point of information and technical assistance that is necessary to ensure that the Nation's schools are able to meet the special educational needs of gifted and talented students, and thereby serve a profound national interest; and

(8) the experience and knowledge gained in developing and implementing programs for gifted and talented students can and should be used as a basis to—

(A) develop a rich and challenging curriculum for all students; and

(B) provide all students with important and challenging subject matter to study and encourage the habits of hard work.

(b) Statement of purpose

It is the purpose of this part—

(1) to provide financial assistance to State and local educational agencies, institutions of higher education, and other public and private agencies and organizations, to initiate a coordinated program of research, demonstration projects, personnel training, and similar activities designed to build a nationwide capability in elementary and secondary schools to meet the special educational needs of gifted and talented students;

(2) to encourage the development of rich and challenging curricula for all students through the appropriate application and adaptation of materials and instructional methods developed under this part; and

(3) to supplement and make more effective the expenditure of State and local funds, for the education of gifted and talented students.

(Pub. L. 89-10, title X, §10202, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3820.)

§ 8033. Construction

Nothing in this part shall be construed to prohibit a recipient of funds under this part from serving gifted and talented students simultaneously with students with similar educational needs, in the same educational settings where appropriate.

(Pub. L. 89-10, title X, §10203, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3822.)

PART C—PUBLIC CHARTER SCHOOLS

PART REFERRED TO IN OTHER SECTIONS

This part is referred to in section 8881 of this title.

§ 8061. Findings and purpose

(a) Findings

The Congress finds that—

(1) enhancement of parent and student choices among public schools can assist in promoting comprehensive educational reform and give more students the opportunity to learn to challenging State content standards and challenging State student performance standards, if sufficiently diverse and high-quality choices, and genuine opportunities to take advantage of such choices, are available to all students;

(2) useful examples of such choices can come from States and communities that experiment with methods of offering teachers and other educators, parents, and other members of the public the opportunity to design and implement new public schools and to transform existing public schools;

(3) charter schools are a mechanism for testing a variety of educational approaches and should, therefore, be exempted from restrictive rules and regulations if the leadership of such schools commits to attaining specific and ambitious educational results for educationally disadvantaged students consistent with challenging State content standards and challenging State student performance standards for all students;

(4) charter schools, as such schools have been implemented in a few States, can embody the necessary mixture of enhanced choice, exemption from restrictive regulations, and a focus on learning gains;

(5) charter schools, including charter schools that are schools-within-schools, can help reduce school size, which reduction can have a significant effect on student achievement;

(6) the Federal Government should test, evaluate, and disseminate information on a

variety of charter school models in order to help demonstrate the benefits of this promising educational reform; and

(7) there is a strong documented need for cash-flow assistance to charter schools that are starting up, because State and local operating revenue streams are not immediately available.

(b) Purpose

It is the purpose of this part to increase national understanding of the charter schools model by—

(1) providing financial assistance for the design and initial implementation of charter schools; and

(2) evaluating the effects of such schools, including the effects on students, student achievement, staff, and parents.

(Pub. L. 89–10, title X, §10301, as added Pub. L. 103–382, title I, §101, Oct. 20, 1994, 108 Stat. 3824.)

The Secretary may award grants to State educational agencies having applications approved pursuant to section 8063 of this title to enable such agencies to conduct a charter school grant program in accordance with this part.

(b) Special rule

SUBPART 2—CULTURAL PARTNERSHIPS FOR AT-RISK CHILDREN AND YOUTH

§ 8101. Findings and purpose

(a) Findings

The Congress finds:

(1) With local school budget cuts there are inadequate arts and cultural programs available for children and youth in schools, especially at the elementary school level.

(2) The arts promote progress in academic subjects as shown by research conducted by the National Endowment for the Arts.

(3) Children and youth who receive instruction in the arts and humanities, or who are involved in cultural activities, remain in school longer and are more successful than children who do not receive such instruction.

(4) Learning in the arts and humanities promotes progress in other academic subjects, and generates positive self-esteem and a greater sense of accomplishment in young people.

(5) School-university and school-cultural institution partnerships that upgrade teacher training in the arts and humanities have significantly contributed to improved instruction and achievement levels of school-aged children.

(6) Museum outreach, cultural activities and informal education for at-risk children and youth have contributed significantly to the educational achievement and enhanced interest in learning of at-risk children and youth.

(7) The Goals 2000: Educate America Act [20 U.S.C. 5801 et seq.], other legislation and local, State and national resources support the integration of the arts and humanities into the regular curriculum and school day for all children.

(8) While all children benefit from instruction in the arts and the humanities, at-risk children and youth have a special, additional need for arts and cultural programs both in school and after school.

(b) Purpose

The purpose of this subpart is to make demonstration grants to eligible entities to improve the educational performance and future potential of at-risk children and youth by providing comprehensive and coordinated educational and cultural services.

(Pub. L. 89-10, title X, §10411, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3832.)

PART K—NATIONAL WRITING PROJECT

§ 8331. Findings

The Congress finds that—

(1) the United States faces a crisis in writing in schools and in the workplace;

(2) the writing problem has been magnified by the rapidly changing student populations and the growing number of at-risk students due to limited English proficiency;

(3) over the past two decades, universities and colleges across the country have reported increasing numbers of entering freshmen who are unable to write at a level equal to the demands of college work;

(4) American businesses and corporations are concerned about the limited writing skills of entry-level workers, and a growing number of executives are reporting that advancement was denied to them due to inadequate writing abilities;

(5) the writing problem has been magnified by the rapidly changing student populations in the Nation's schools and the growing number of students who are at risk because of limited English proficiency;

(6) writing and reading are both fundamental to learning, yet writing has been historically neglected in the schools and colleges, and most teachers in the United States elementary schools, secondary schools, and colleges have not been trained to teach writing;

(7) since 1973, the only national program to address the writing problem in the Nation's schools has been the National Writing Project, a network of collaborative university-school programs whose goal is to improve the quality of student writing and the teaching of writing at all grade levels and to extend the uses of writing as a learning process through all disciplines;

(8) the National Writing Project offers summer and school year inservice teacher training programs and a dissemination network to inform and teach teachers of developments in the field of writing;

(9) the National Writing Project is a nationally recognized and honored nonprofit organization that recognizes that there are teachers in every region of the country who have developed successful methods for teaching writing and that such teachers can be trained and encouraged to train other teachers;

(10) the National Writing Project has become a model for programs to improve teaching in such other fields as mathematics, science, history, literature, performing arts, and foreign languages;

(11) the National Writing Project teacher-teaching-teachers program identifies and promotes what is working in the classrooms of the Nation's best teachers;

(12) the National Writing Project teacher-teaching-teachers project is a positive program that celebrates good teaching practices and good teachers and through its work with schools increases the Nation's corps of successful classroom teachers;

(13) evaluations of the National Writing Project document the positive impact the project has had on improving the teaching of writing, student performance, and student thinking and learning ability;

(14) the National Writing Project programs offer career-long education to teachers, and teachers participating in the National Writing Project receive graduate academic credit;

(15) each year over 100,000 teachers voluntarily seek training in National Writing Project intensive summer institutes and workshops and school year in-service programs through one of the 154 regional sites located in 45 States, the Commonwealth of Puerto Rico, and in 4 sites that serve United States teachers in United States dependent and independent schools;

(16) 250 National Writing Project sites are needed to establish regional sites to serve all teachers;

(17) private foundation resources, although generous in the past, are inadequate to fund all of the National Writing Project sites needed and the future of the program is in jeopardy without secure financial support;

(18) independent evaluation studies have found the National Writing Project to be highly cost effective compared to other professional development programs for teachers; and

(19) during 1991, the first year of Federal support for the National Writing Project, the National Writing Project matched the \$1,951,975 in Federal support with \$9,485,504 in matching funds from State, local, and other sources.

(Pub. L. 89-10, title X, §10991, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3859.)

See sections 3(2) and 14 of Pub. L. 92-463, Oct. 6, 1972, 86 Stat. 770, 776, set out in the Appendix to Title 5, Government Organization and Employees.

PART L—EXTENDED TIME FOR LEARNING AND LONGER SCHOOL YEAR

§ 8351. Extended time for learning and longer school year

(a) Findings

The Congress finds that—

(1) the Commission on Time and Learning has found that—

- (A) realizing the third National Education Goal, that states all students will leave grades four, eight and twelve having demonstrated competency in challenging subject matter, including English, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography, will require considerably more common core learning time than most students now receive;

(B) ensuring that all students learn to high standards will require flexibility and innovation in the use of common core learning time, as well as the rest of the time students spend both during and beyond the school day;

(C) teachers need regular, sustained time for lesson development, collegial collaboration and other professional development;

(D) schools, businesses, community-based organizations, tribal leaders, and other community agencies and members should work together to foster effective learning and enrichment programs and activities for students, including programs that operate outside of the regular school day or year;

(E) for most students in the United States, the school year is 180 days long. In Japan students go to school 243 days per year, in Germany students go to school 240 days per year, in Austria students go to school 216 days per year, in Denmark students go to school 200 days per year, and in Switzerland students go to school 195 days per year; and

(F) in the final four years of schooling, students in schools in the United States are required to spend a total of 1,460 hours on core academic subjects, less than half of the 3,528 hours so required in Germany, the 3,280 hours so required in France, and the 3,170 hours so required in Japan;

(2) increasing the amount and duration of intensive, engaging and challenging learning activities geared to high standards can increase student motivation and achievement;

(3) the benefits of extending learning time, including common core instructional time, can be maximized by concurrent changes in curriculum and instruction, such as accelerated learning, and engaging, interactive instruction based on challenging content;

(4) maximizing the benefit of increased common core and other learning time will require the collaboration and cooperation of teachers and administrators, students, parents, community members and organizations, businesses and others to develop strategies to meet the needs of students during and beyond the school day and year;

(5) a competitive world economy requires that students in the United States receive education and training that is at least as rigorous and high-quality as the education and training received by students in competitor countries;

(6) despite our Nation's transformation from a farm-based economy to one based on manufacturing and services, the school year is still based on the summer needs of an agrarian economy;

(7) American students' lack of formal schooling is not counterbalanced with more homework. The opposite is true, as half of all European students report spending at least two hours on homework per day, compared to only 29 percent of American students. Twenty-two percent of American students watch five or more hours of television per day, while less than eight percent of European students watch that much television;

(8) more than half of teachers surveyed in the United States cite "children who are left on their own after school" as a major problem;

(9) over the summer months, disadvantaged students not only fail to advance academically, but many forget much of what such students had learned during the previous school year;

(10) funding constraints as well as the strong pull of tradition have made extending the school year difficult for most States and school districts; and

(11) experiments with extended and multi-track school years have been associated with both increased learning and more efficient use of school facilities.

(b) Purposes

It is the purpose of this part to—

(1) provide seed money to schools and local educational agencies to enable such agencies to devise and implement strategies and methods for upgrading the quality of, and extending, challenging, engaging learning time geared to high standards for all students; and

(2) allow the Secretary to provide financial incentives and assistance to States or local educational agencies to enable such States or agencies to substantially increase the amount of time that students spend participating in quality academic programs, and to promote flexibility in school scheduling.

(c) Program authorized

(1) In general

The Secretary is authorized to award grants to local educational agencies having applications approved under subsection (d) of this section to enable such agencies to carry out the authorized activities described in subsection (e) of this section in public elementary and secondary schools.

(2) Amount

The Secretary shall, to the extent practicable, provide an equitable distribution of grants under this section.

(3) Duration

Each grant under subsection (a) of this section shall be awarded for a period of not more than three years.

(4) Priority

The Secretary shall give priority to awarding grants under this part to local educational agencies that serve schools with high percentages of students in poverty.

(d) Application

Each local educational agency desiring a grant under this section shall submit an application to the Secretary at such time, in such manner, and accompanied by such information as the Secretary may require. Each such application shall describe—

(1) the activities for which assistance is sought;

(2) any study or other information-gathering project for which funds will be used;

(3) strategies and methods the applicant will use to enrich and extend learning time for all students and to maximize the percentage of common core learning time in the school day, such as block scheduling, team teaching, longer school days or years, and extending

learning time through new distance-learning technologies;

(4) the strategies and methods the applicant will use, including changes in curriculum and instruction, to challenge and engage students and to maximize the productiveness of common core learning time, as well as the total time students spend in school and in school-related enrichment activities;

(5) the strategies and methods the applicant intends to employ to provide continuing financial support for the implementation of any extended school day or school year;

(6) with respect to any application seeking assistance for activities described under subsection (e)(4) of this section, a description of any feasibility or other studies demonstrating the sustainability of a longer school year;

(7) the extent of involvement of teachers and other school personnel in investigating, designing, implementing and sustaining the activities assisted under this part;

(8) the process to be used for involving parents and other stakeholders in the development and implementation of the activities assisted under this part;

(9) any cooperation or collaboration among public housing authorities, libraries, businesses, museums, community-based organizations, and other community groups and organizations to extend engaging, high-quality, standards-based learning time outside of the school day or year, at the school or at some other site;

(10) the training and professional development activities that will be offered to teachers and others involved in the activities assisted under this part;

(11) the goals and objectives of the activities assisted under this part, including a description of how such activities will assist all students to reach State standards;

(12) the methods by which the applicant will assess progress in meeting such goals and objectives; and

(13) how the applicant will use funds provided under this part in coordination with other funds provided under this chapter or other Federal laws.

(e) Authorized activities

Funds under this section may be used—

(1) to study the feasibility of, and effective methods for, extending learning time within or beyond the school day or year, including consultation with other schools or local educational agencies that have designed or implemented extended learning time programs;

(2) to conduct outreach to and consult with community members, including parents, students, and other stakeholders, such as tribal leaders, to develop a plan to extend learning time within or beyond the school day or year;

(3) to develop and implement an outreach strategy that will encourage collaboration with public housing authorities, libraries, businesses, museums, community-based organizations, and other community groups and organizations to coordinate challenging, high-quality educational activities outside of the school day or year;

(4) to support public school improvement efforts that include expansion of time devoted to core academic subjects and the extension of the school year to 210 days;

(5) to research, develop and implement strategies, including changes in curriculum and instruction, for maximizing the quality and percentage of common core learning time in the school day and extending learning time during or beyond the school day or year;

(6) to provide professional development for school staff in innovative teaching methods that challenge and engage students, and also increase the productivity of extended learning time; and

(7) to develop strategies to include parents, business representatives, and other community members in the extended time activities, especially as facilitators of activities that enable teachers to have more time for planning, individual student assistance, and professional development activities.

(f) “Common core learning time” defined

For the purpose of this section the term “common core learning time” means high-quality, engaging instruction in challenging content in each of the following core academic subjects described in the third National Education Goal:

- (1) English.
- (2) Mathematics.
- (3) Science.
- (4) Foreign languages.
- (5) Civics and government.
- (6) Economics.
- (7) Arts.
- (8) History.
- (9) Geography.

(g) Administration

(1) Peer review

The Secretary shall award grants under this section pursuant to a peer review process.

(2) Diversity

In awarding grants under this section the Secretary shall ensure that such grants are awarded to a diversity of local educational agencies, including such agencies that serve rural and urban areas.

(h) Appropriations authorization

(1) In general

For the purpose of carrying out this section there are authorized to be appropriated \$90,000,000 for fiscal year 1995 and such sums as may be necessary for each of the four succeeding fiscal years.

(2) Limitation

Not less than 80 percent of any amount appropriated under paragraph (1) shall be made available to applicants seeking to extend their school year to not fewer than 210 days.

(Pub. L. 89-10, title X, §10993, as added Pub. L. 103-382, title I, §101, Oct. 20, 1994, 108 Stat. 3863.)

PART M—TERRITORIAL ASSISTANCE

SUBCHAPTER XI—COORDINATED SERVICES

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in section 8826 of this title.

§ 8401. Findings and purpose

(a) Findings

The Congress finds the following:

(1) Growing numbers of children are negatively affected by influences outside of the classroom which increase such children's risk of academic failure.

(2) Factors such as poor nutrition, unsafe living conditions, physical and sexual abuse, family and gang violence, inadequate health care, unemployment, lack of child care, and substance abuse, adversely affect family relationships and the ability of a child to learn.

(3) Parents and other caregivers in today's high pressure society often face demands which place restraints on such parents' and caregivers' time and affect such parents' and caregivers' ability to adequately provide for the needs of the families of such parents and caregivers.

(4) Access to health and social service programs can address the basic physical and emotional needs of children so that children can fully participate in the learning experiences offered children in school.

(5) Services for at-risk students need to be more convenient, and less fragmented, regulated and duplicative, in order to meet the needs of children and their families.

(6) School personnel, parents, and support service providers often lack knowledge of, and access to, available services for at-risk students and their families in the community, and have few resources to coordinate services and make services accessible.

(7) Service providers, such as teachers, social workers, health care and child care providers, juvenile justice workers and others, are often trained in separate disciplines that provide little support for the coordination of services.

(8) Coordination of services is more cost effective because such coordination substitutes prevention for expensive crisis intervention.

(9) Coordinating health and social services with education can help the Nation meet the National Education Goals by ensuring better outcomes for children.

(b) Purpose of coordinating services

The purpose of this subchapter is to provide elementary and secondary school students and their families better access to the social, health and education services necessary for students to succeed in school and for their families to take an active role in ensuring that such students receive the best possible education.

(4) current technical assistance and dissemination efforts are fragmented and categorical in nature, and thus fail to address adequately the needs of States, local educational agencies and tribes for help in integrating into a coherent strategy for improving teaching and learning the various programs under this chapter with State and local programs and other education reform efforts;

(5) too little creative use is made of technology as a means of providing information and assistance in a cost-effective way;

(7) comprehensive technical assistance will provide coordinated assistance to help States, local educational agencies, tribes, participating colleges and universities, and schools integrate Federal, State, and local education programs in ways that contribute to improving schools and entire school systems;

(8) technical assistance in support of programs under this chapter should be coordinated with the Department’s regional offices, the regional educational laboratories, State Literacy Resource Centers, vocational resource centers, and other technical assistance efforts supported by the Department; and

PART H—SENSE OF CONGRESS

§ 8961. Sense of Congress to increase total share of Federal spending on education

(a) Findings

The Congress finds that—

(1) in order to increase our Nation's standard of living and to increase the number of good jobs, the United States must increase its productivity and ability to compete in the international marketplace by improving the educational level of our workforce;

(2) although efforts are being made to establish higher educational standards and goals, there is a substantial shortage of resources to meet such standards and goals;

(3) States and local communities are finding it increasingly difficult to meet ever higher educational standards and goals, and States will not be able to fund needed changes without Federal help to reach such standards and goals;

(4) the Federal Government has established many educational programs but failed to provide adequate funding for such programs, for example one such program provides education to our Nation's disabled students and was established with a promise of 40 percent Federal funding but currently receives only eight percent Federal funding;

(5) the annual shortfall in Federal education programs is approximately half of the promised funding;

(6) many needed educational improvements will not need Federal funds, however, other suggested changes such as lengthened school years, better pay, after-school activities, mentoring for students at risk, programs for gifted students, and replacing substandard buildings, will require substantial Federal assistance; and

(7) the Federal contribution to education is less than two percent of the total Federal budget, and in order to make education a national priority, the total percentage of Federal educational funding should be increased by one percent each year over the next eight years to reach 10 percent of the total Federal budget.

(b) Sense of Congress

It is the sense of the Congress that the total share of the Federal spending on education should increase by at least one percent each year until such share reaches 10 percent of the total Federal budget.

(Pub. L. 89–10, title XIV, § 14801, as added Pub. L. 103–382, title I, § 101, Oct. 20, 1994, 108 Stat. 3911.)

§ 8962. Sense of Congress; requirement regarding notice

(a) Purchase of American-made equipment and products

In the case of any equipment or products that may be authorized to be purchased with financial assistance provided under this chapter, it is the sense of the Congress that entities receiving such assistance should, in expending the assistance, purchase only American-made equipment and products.

(b) Notice to recipients of assistance

In providing financial assistance under this chapter, the head of each Federal agency shall provide to each recipient of the assistance a notice describing the statement made in subsection (a) of this section by the Congress.

(Pub. L. 89–10, title XIV, § 14802, as added Pub. L. 103–382, title I, § 101, Oct. 20, 1994, 108 Stat. 3912.)

PRIOR PROVISIONS

Provisions similar to those in this chapter were contained in section 1221e–1 of this title prior to repeal by Pub. L. 103–382, § 212(a)(1).

§ 9001. Findings; purpose; definitions

(a) Findings

The Congress finds that—

(1) a Department of Education was established in 1867 “for the purpose of collecting such statistics and facts as shall show the condition and progress of education in the several States and territories, and of diffusing such information respecting the organization and management of schools and school systems and methods of teaching as shall aid the people of the United States in the establishment and maintenance of efficient school systems, and otherwise promote the cause of education throughout the United States”;

(2) today, while the role of the current Department of Education is much broader, the National Center for Education Statistics within the Office of Educational Research and Improvement continues to perform those crucial original purposes; and

(3) looking to the 21st century, the National Center for Education Statistics must be able to design and undertake, effectively and efficiently, statistical activities that will aid in the reform of the Nation’s educational systems.

(b) Purpose

It is the purpose of this chapter to ensure the continuation of an effective mechanism for collecting and reporting statistics and information showing the condition and progress of education
